Action Comes as Surpr Trojan Follower

Blow Leaves Team W Tackle Berths

Fay Thomas, football on U.S.C., was last night declared eligible for further athletic action.

At a meeting of the faculty committee of the University of Southern California held last night, Fay Thomas, captain of the football team, was declared ineligible for further athletic action because of his participation in a gambling game.

Thomas could not be reached last night. Neither could Gwyn Wilson, U.S.C. star quarterback, said he was completely surprised in the news and didn't know anything about it other than the mere fact that communication had been given.

Fay was the star of last season's football team, his pitching attracting the attention of Pacific League clubs. It is understood that during the summer, his loss to a hard blow to the head, he was unable to play.

Thomas already was a hard blow to the head, he was unable to play.

BERKELEY, Sept. 21.—C. J. Clark, who has been playing football for the University of California, was declared ineligible for further athletic action because of his participation in a gambling game.

Clark was the star of last season's football team, his pitching attracting the attention of Pacific League clubs. It is understood that during the summer, his loss to a hard blow to the head, he was unable to play.

RECLAMATION OFFICES MOVED TO FLORENCE

"Why endure that itching, burning torment"

at TUXEDO Headquarters

ALAMOSA (Colo.) Sept. 21.—Peaceful precincts of the State Soldiers' and Sailors' home here when the marriage of Mrs. B. F. Irvin, 85 years of age, and William H. Rector, 82, both living at the institution, was announced.

FLORINCE (Ariz.) Sept. 21.—Headquarters for the San Carlos reclamation project have been moved from San Carlos to this city, as well as the office that has been maintained at the Sacaton Indian agency. Communications with the dam site at San Carlos now is by way of Globe, but a shorter route, through Winkelman, is being surveyed. Diversion dams across the Gila River, intended especially for Indian land service, have been completed above Florence and above Sacaton, and a large amount of canal work is in progress. Benefit also will accrue to a considerable acreage of land in white ownership near Florence and Casa Grande.

### PLAN SURVEY OF BUILDING COSTS

Contractors' Groups to Visit Forty Cities  
Los Angeles Conditions to Be Studied

Public, Private Work Will Be Scrutinized

WASHINGTON, Sept. 21.—Costs and methods of construction in all parts of the country are to be studied during the next thirty days by groups of nationally known builders who will visit more than forty cities.

The builders, acting as executives of the Associated General Contractors of America, will form into five groups this month, meeting in northern cities to follow as many different itineraries that will take them to Dallas, Tex., where a summarizing conference will convene October 8, 7, and 8.

Coming after three months during which all records for volume of construction carried on have been shattered, the broadcast studies are to be made at a particularly apt time, the contractors feel. Scrutinizing attention will be directed toward both public and private construction.

A large amount of the study devoted to private construction will center in ethical practices of the various elements of the industry.

Will lead to a close survey of the methods of financing construction operations. Elimination of certain financing methods now prevalent will result in fictitious building costs being less often presented to the public as excuses for high rental rates.

In connection with public construction work, the contractors expect to develop many facts about the same lines as those which they made public at Washington last May concerning waste of funds by governmental units handling operations without use of competitive contracts.

Of the five groups the one making the first start and with the longest itinerary ahead of it is scheduled to go to Denver from Chicago, thence to the following cities: Salt Lake City, Spokane, Seattle, Portland, San Francisco, Los Angeles, El Paso and Dallas.

A second party will leave Minneapolis the 25th inst., proceeding to Des Moines, Chicago, Indianapolis, St. Louis, Little Rock, Oklahoma City, Dallas.

Starting at Washington, the 27th inst., another group will visit the following cities: Atlanta, Jacksonville, Miami, Birmingham, New Orleans, Shreveport and Dallas.

Boston will be the meeting place of other builders whose itinerary will include Bridgeport, New York, Trenton, Philadelphia, Wilmington, Washington, Richmond, Charlotte and Dallas.

The fifth group will leave Cleveland the 27th inst. and will go to Toledo, Dayton, Cincinnati, Louisville, Knoxville, Nashville, Memphis and Dallas.

SAN DIEGO'S HAT IN RING

SACRAMENTO, Sept. 21.—Another candidate for Governor in 1926 has put in his appearance in the person of L. Kinney, Canadian of San Diego, who made known his intention to run in a letter to Secretary of State Jordan. Dr. Kinney supported the late Senator La Follette in his Presidential campaign in 1924.

According to Canadian regulations Chinese merchants, merchants' sons, and students are allowed two years to return on their passports, from the time they leave here.

Propeller Shot From Airplane by Machine Gun

SAN ANTONIO (Tex.) Sept. 21.—The third attempt to fire a synchronized fifty-caliber machine gun from an attack plane resulted in part of the ship's propeller being shot off, at Kelly Field. The test, like the two previous ones, was made on the ground with the tail of the plane propped up in a flying position.

The motor of the plane was running and the gun pointed into a dirt bank.

In the first test the machine gun was fired without a blast tube and the vibration tore part of the covering from the radiator head. Officers in charge of the tests, realizing the possible results, had equipped the plane with old propellers that could not be used in actual flying.

BEAR BEDFELLOW FOR JURIST IN ARIZONA

CLIFTON (Ariz.) Sept. 21.—A tale is told that Supreme Justice Henry D. Ross, on a camping trip with his son into the woods north of Clifton, had a bear for bedfellow one night, this after failure to find bears in several days of hunting.

The magistrate sleepily resented the invasion of his blankets and pushed the intruder away. His explanation of the affair is that it was only a poor little cub, seeking companionship and warmth, and that he is too much of a sportsman, anyhow, to shoot a cub.

SHOOTING AT TIRES HALTS FAST DRIVING

YUMA (Ariz.) Sept. 21.—Numerous wrecks lately on the California side of the Colorado River bridge have caused the official determination to curb reckless driving.

Deputy Sheriff J. B. Pomeroy of Wintershaven is on the job and states that on two occasions he gained the attention of heedless motorists by shooting their tires.

### FARMERS IN SMOKE CASE GET VERDICT

Arizona Jury Assesses Damages Against Verde Smelter Companies

VERDE (Ariz.) Sept. 21.—After an even week of trial, pushed with all possible speed by Judge George M. Bourquin, called from Butte, Mont., a jury in the long-contested Verde Valley "smoke case" has decided for the farmer plaintiffs and has assessed damages of \$49,975.55 each against the United Verde Copper Company and United Verde Extension Mining Company, which operate smelters, respectively, at Clarkdale and Chienkesaw within the valley. The plaintiffs had asked \$62,000.

Witnesses for the plaintiffs submitted testimony that sulphur smoke from the smelter stacks had settled over the fields like thick fog and that plants and trees foliage had died thereafter. One witness told how the fumes had choked him and burned his eyes. Some of the farms asserted to have been affected lie twenty miles distant from the smelters.

After presentation of the plaintiffs' case, the United Verde Copper Company was refused a motion to dismiss and rested, but the extension presented a defense that the damage was caused by too much irrigation, plant diseases, insects and other features of farming in the locality.

Four years ago a similar case was tried here, consuming a month and ending with a verdict for the farmers of \$11 damage. Much of the acreage in the valley around the smelters has been purchased by the mining companies. In at least one Arizona locality, the companies have purchased "smoke rights" on large areas, thus avoiding litigation.

Tourists Spend Million Pounds Daily in France

LONDON, Sept. 21.—Tourists spend on an average, £1,000,000 a day in France, Sir Robert Horne's statistical cogitations on the subject of foreigners in France declare.

The figure is given as applying during the tourist season, which is put at about three months—July, August, and September. This would mean that France receives from this source during this quarter alone about £100,000,000, or nearly \$500,000,000.

By tourists, the former British chancellor of the exchequer means merely Britishers and Americans. He has made no attempt to calculate what is brought in by Germans, Scandinavians, Spaniards, and other nations.

Canadians Hold Many Passports of Chinese Void

VANCOUVER (B. C.) Sept. 21.—Since the trouble in China, Canadian immigration officials have been tightening up on regulations governing the entrance of Chinese to this country, with the result that last week a number of Chinese who overstayed their time in China have been ordered deported.

According to Canadian regulations Chinese merchants, merchants' sons, and students are allowed two years to return on their passports, from the time they leave here.

Propeller Shot From Airplane by Machine Gun

SAN ANTONIO (Tex.) Sept. 21.—The third attempt to fire a synchronized fifty-caliber machine gun from an attack plane resulted in part of the ship's propeller being shot off, at Kelly Field. The test, like the two previous ones, was made on the ground with the tail of the plane propped up in a flying position.

# Fay Thomas Ruled Ineligible by U.S.C. Faculty

## SPORTS

### The Los Angeles Times

TUESDAY MORNING, SEPTEMBER 22, 1925.

# WALKER RETAINS TITLE IN BATTLE WITH SHADE

## GRID CAPTAIN IS RULED OUT

Took Money for Playing Ball is Charge Made

Action Comes as Surprise to Trojan Followers

Now Leaves Team Week at Tackle Berths

Fay Thomas, football captain at USC, was last night declared ineligible for further athletic competition by the faculty athletic committee of the Trojan institution. The charge against Thomas is that he accepted money for playing baseball. This is contrary to the rules of the Pacific Coast conference, of which the local institution is a member.

Here's the text of the message issued by Bill Hunter, director of the university's sports at U.S.C., to the faculty athletic committee last night:

A meeting of the faculty athletic committee of the University of Southern California held this evening. Fay Thomas, captain of the varsity football team, was declared ineligible for further athletic competition because he accepted money for playing baseball during the summer of 1924.

Thomas could not be reached last night. Neither could Willett. When Willett, U.S.C. graduate manager, said he was taken completely by surprise in the matter, he didn't know anything about it other than the mere fact that the committee had been given out.

Fay was the star of last spring's football team, his pitching attracting the attention of Pacific Coast coaches. It is understood he played with the White King Sox during the summer.

He has a hard blow to the football team. The Trojans were already weak at the tackle berths when the graduation of Norm Anderson and the ineligibility of X. Thomas, a sophomore who was recently ruled ineligible.

MEANS MEET BRONCS (EXCLUSIVE DISPATCH) BERKELEY, Sept. 21.—California's open bar football season opened last night in the Memorial Stadium Saturday.

## THE BEARDED GRIDDER

You have heard of bearded women, bearded lions in their respective dens and lots of other things along that line, but the young man below is probably the first bearded football player you ever lamped. He's Tom Denny, quarter-back on the Whittier football team, and he plays against U.S.C. at the Coliseum Saturday. More about him in the story below.

## VETERANS AT WHITTIER

### Coach Leo Calland Has All Letter Men on Eleven Despite Loss of Eight Regulars

Tin-lizzed to Whittier yesterday afternoon to see our old college chum, Leo Calland, and his Quaker grid athletes. In case you don't remember Calland, he was one of the best linemen ever turned out at U.S.C. He finished his playing career by captaining the Trojan eleven which polished off Penn State, 14 to 3, on January 1, 1923. We had the misfortune to be thrown into a couple of games with Leo during our college career and know how good he was.

Now he's head grid mentor at Whittier College. Yesterday he presided over a group of some thirty athletes, while his assistant, Ray Johns, was chaperoning the frosh.

SOMEWHAT DISTURBED Leo was somewhat disturbed because reports had gone out that he was abundantly supplied with the frosh.

However, if Almgren will not whitewash Calland, the Vernon promoter may sign Phil Calvadoro or Tommy Cello to meet Moran. It was announced last night.

DOYLE ATTEMPTS TO GET MUSHY CLEARED In an effort to get Mushy Callahan restored to good standing so he can box Pal Moran in the outdoor show at Malar Ball Park next Tuesday night, Jack Doyle, Vernon impresario, was in telephonic communication with Commissioner Louis Almgren in Seattle last night.

Doyle does not believe Callahan, who was not involved in the mess over the referees, should be penalized for something over which he had no control.

However, Almgren will not whitewash Callahan, the Vernon promoter may sign Phil Calvadoro or Tommy Cello to meet Moran. It was announced last night.

FORT BLISS DEFEATS ROCKAWAY POLO TEAM (BY A. P. NIGHT WIRE) PHILADELPHIA, Sept. 21.—The Fort Bliss polo team of El Paso, Tex., today won the intercollegiate championship by defeating Rockaway, 12 to 8, at Philadelphia Country Club. The defeat of the Long Islanders, who conceded the soldiers a 3-goal handicap, furnished one of the biggest surprises of the tournament.

AMERICAN SIX-METER YACHT TEAM IN LEAD (BY A. P. NIGHT WIRE) OYSTER BAY (N. Y.), Sept. 21.—The United States six-meter yacht team today won the fifth race of the international series with the fleet of the Scandinavian yacht racing union. The point score was 26 1-4 to 16 and gives the Americans a lead of three to two in the series.

FEATHERSTONE WINS BOUT WITH SWORDFISH (EXCLUSIVE DISPATCH) AVALON (California) Sept. 21.—The world record broadbill endurance battle was fought yesterday to a successful termination by E. A. Featherstone, who brought to gaff a 330-pound swordfish after an eight-hour and forty-five-minute marathon tussle with the purple gladiator of the sea.

Zuppke—Today the leading strategist of the game, he never played varsity football: at the University of Wisconsin during his undergraduate days "he was too small for the big team." But he became the nation's greatest student of the game, and much of the newer strategy of the last decade was devised by him.

## CHARLEY ROOT IS SUSPENDED

Four Players Penalized for Part in Sunday Riot

Ball Park Cushion Barrage Proves Very Costly

Prexy Williams Gives Boys Involuntary Vacation

For their part in the episode which resulted in a cushion-throwing epidemic on the part of the baseball fans during the second game of the double-header between Los Angeles and Seattle at Washington Park Sunday one Angel player and three of the Seattle athletes yesterday drew indefinite suspensions.

Those set down by President Harry A. Williams of the Pacific Coast League are Charley Root, Los Angeles pitcher; Third Baseman Frank Brazil, First Baseman Babe Herman and Pitcher Sterling Stryker of the Seattle team.

All suspensions were for the same cause: Expectorating on the ball and soiling it. President Williams said.

In addition Brazil and Stryker were fined \$25 apiece.

In announcing the suspensions and fines President Williams declared that Umpire Tech handled the situation just right. He said the suspensions will run from three days to two weeks.

## SIGN MITCHELL FOR BOUT HERE

Root Secures Junior Welter Champ for Olympic

Meets Oakland Jimmy Duffy Week from Tomorrow

Teddy Silva and Kid Ponce in Semi-Wind-up

"Pinkie" Mitchell of Milwaukee, who holds the National Boxing Association's 13000 diamond belt emblematic of the junior welterweight boxing championship of the world, will meet "Oakland" Jimmy Duffy in the main event at the Olympic Club one week from tomorrow night.

Mitchell, who has held the championship in his class since 1923, was signed by Jack Root's representative in the East. Duffy's game went on a contract last week to meet anyone of his weight the Olympic management might select.

It will be Duffy's first bid since he met Frankie Schell in San Francisco last April. He has long been recognized as the leading welterweight on the Coast, and the reappearance of the classy northern boy against an outstanding fighter like Mitchell will be a big spot on the fight calendar next week.

Backing up the main event will be the semi-wind-up of Teddy Silva and Kid Ponce.

(Continued on Page 2, Column 3)

## OBSERVATIONS

BY THE INNOCENT BYSTANDER BILL HENRY

PRETTY nearly all of the local colleges have scrimmaged once or twice already and things are beginning to shape up. U.S.C., as everybody suspected, is going to be tremendously strong. As we recollect it, the big Cardinal and gold eleven looked better last season against Caltech after ten days of work than it did against several other teams after ten weeks of it. That was due largely to the fact that against Caltech the Trojans played the only thing they knew at that stage of the season—straight football—and how they did play! If they had stuck to straight football, the attack would have been a last year they probably wouldn't have been beaten at all. This year they'll play good straightaway stuff and they'll be awfully hard to beat. Fancy stuff is good to slip in once in a while into your running attack, but when all your plays are supposed to be clever the punch quickly disappears and the attack becomes spasmodic and halting.

Wynn Mace, secretary of the Southern California Lawn Tennis Association, is concealing a large amount of excitement beneath his placid face. Wynn anticipates more good tennis this fall than has ever.

(Continued on Page 2, Column 5)

## PIRATES SURE OF PENNANT WITH THREE MORE VICTORIES

(BY A. P. NIGHT WIRE) CHICAGO, Sept. 21.—Three more victories for the Pirates out of their remaining nine games will give Pittsburgh its first pennant since 1909 by a margin of three points over the Giants, even though the New York club should win all its remaining eleven games. Pittsburgh defeated Philadelphia today and increased its lead over McGraw's club to eight games, while the Giants were forced by rain to remain idle in St. Louis. By annexing only three contests, if New York turns in its entire string into victories, the Pirates would finish in front as follows:

Pittsburgh ..... 94 60 .610  
New York ..... 93 61 .607  
By winning five of their remaining twelve games the Pirates are leading the Coast League race by a margin of eleven full games. The season will end on October 18.

Senators will clinch the American League pennant for the second consecutive time even though the Athletics should win all their remaining games. Philadelphia clipped one-half game from the Senators' lead today by downing Detroit, while Washington rested. The pace-makers now are seven and one-half games ahead, and by winning five more games while the Athletics win all theirs, would win by seven points as follows:

Washington ..... 97 57 .630  
Philadelphia ..... 96 58 .623  
The standing tonight:

NATIONAL  
Pittsburgh ..... 91 54 .628  
New York ..... 82 61 .573  
AMERICAN  
Washington ..... 92 50 .648  
Philadelphia ..... 85 58 .594

## SEALS MAY PLAY LOUISVILLE IN "LITTLE WORLD'S SERIES"

(BY A. P. NIGHT WIRE) SAN FRANCISCO, Sept. 21.—George A. Putnam, secretary of the San Francisco Baseball Club, announced today that if the Seals win the Pacific Coast League pennant, they will meet the Louisville team, champions of the American association, here in a "little world's series" beginning October 22. Nine games will be played and the team winning the first five contests will be declared "little world's champions."

At present the Seals are leading the Coast League race by a margin of eleven full games. The season will end on October 18.

## HE'S STILL CHAMPION

Mickey Walker, the Elizabeth thunderbolt, retained his welterweight crown last night in a hard-fought fifteen-round battle with Dave Shade of California, the scrap taking place in New York. Shade caused the champion much annoyance during the fight, Mickey's body punching wearing the challenger down so that a last-round rally by Walker gave him the decision.

## ERNIE OWENS DEFEATED

Ad Stone Warned About Pulling Punches But Has Easy Time Winning Slow 10-Round Struggle

(EXCLUSIVE DISPATCH) EAST CHICAGO, Sept. 21.—In a bout which had all the indications of a carry, Ad Stone of Philadelphia ruined the pugilistic aspirations of Ernie Owens of California in the main event of the boxing show at East Chicago tonight.

There was not a semblance of a knockdown in the entire ten rounds.

Ad Stone was one of the best running guards in the conference and was capable of playing forward when needed in that position. The loss of the captain-elect will greatly affect the plans of Coach Smith, and the strength of the Occidental quintet.

Archer was one of the best running guards in the conference and was capable of playing forward when needed in that position. The loss of the captain-elect will greatly affect the plans of Coach Smith, and the strength of the Occidental quintet.

## CHAMPION WINS BY WILD RALLY

California Boy Credited With Eight Rounds

Coast Welter "Goes Dead" in Final Chapter

Garrison-Finish Act Ruins Dave's Hopes

BY HARRY NEWMAN (EXCLUSIVE DISPATCH) NEW YORK, Sept. 21.—Mickey Walker retains his welterweight championship by virtue of the decision he received tonight over Dave Shade at the end of fifteen rounds at the Yankee Stadium.

That whirlwind finish, which in the fifteenth gave Walker the victory, although in my opinion Shade was the winner up to that point, Dave just stopped in that final round and could not fight a lick after having matters well in hand up to that chapter. I gave Shade eight of the fifteen rounds, five I credited to Walker and two I called even. There is no doubt in my mind that that Garrison finish staged by Walker in the closing round had all to do with influencing the judges in his behalf.

HOPES GO BLOODY It was a disappointing picture offered the Shade boosters to see him go dead, when he appeared to be on the verge of championship. He put up a great fight. There was not an idle second with those plucky fellows in those trading punches. In my opinion Shade did all the better and cleaner punching, while Walker's best shot was an overhanded looping right to the kidneys, which he never stopped using, a blow that must have had effect on Shade near the finish. Mickey was strong in the clinches, putting fierce lefts to the body, but even so, Shade continued to beat him to the punch and often had the better of the inside work.

To sustain my opinion of the result of the fight to a slight degree, I must mention the fact that George Kelly, one of the judges, gave his vote to Shade, while Dick Nugent, the other judge, and Patsy Haley, the referee, voted in favor of Walker.

GO TO WORK Right off the bat the two boys

# A CHUCKLE for EVERYBODY

## LOCAL LAUGHS

Each week The Times produces a film entitled "Local Laughs," consisting of the fifteen best jokes submitted by local people. Weekly prizes are paid of \$5, \$3, \$2, and twelve of \$1 each. A list of the names of the winners, together with rules for submitting jokes, are given daily in a coupon in The Times. Prize-winning jokes, and names and addresses of winners, appear only on the screen. Jokes receiving honorable mention will be given a place of honor on The Times comic page each week-day, and each of these contributors will receive a souvenir of acknowledgment.

"Whom does the new baby resemble?"  
"He has my wife's eyes and my nose, but I think he got his voice from our auto horn."  
L. M. Hamilton, 1928 1-2 Pennsylvania avenue, City.

"Is it true, doctor, that you are a lady-killer?"  
"Madam, I make no distinction between sexes."  
L. M. Hamilton, 1928 1-2 Pennsylvania, City.

"Can you play an obbligate for me while I sing a song?"  
"I'm sorry, but the only instrument I play is the fiddle."  
E. Brininstool, 1428 South Norton, City.

A hunter came across a man guarding the entrance to a cave. The man said he was guarding a gold mine. "Is it quartz?"  
"No, pints."  
H. W. Kay, 2047 Lime avenue, Long Beach.

Mother: (Tommy got his shoes wet.) "Didn't I tell you not to go near the ocean?"  
"I didn't—the ocean came to me."  
L. Adams, Box 966, San Pedro.

"I want a comb."  
"A narrow, man's comb?"  
"No, a comb for a stout man with rubber teeth."  
G. Odell, 102 West Arlington avenue, Riverside.

"Did you come back after something you forgot?"  
"No, after something I remembered."  
L. Sutherland, 817 Westbourne Drive, Hollywood.

"Do you know you're quite handsome, John?"  
"Yes, Mary—it's a way I have when it gets anywhere near your birthday."  
Helen Korman, 197 S. Dillon street, City.

### MUNICIPAL CAR LINES FORECAST

Phoenix May Buy Out Trolley System

Will Abandon Operation Next Month

Impending

(EXCLUSIVE DISPATCH) PHOENIX, Sept. 21.—Phoenix headed toward municipal ownership of its street-car lines. The City Commission has announced that the electric trolley system will be sold to the city. Mayor L. W. Whitcomb has allowed himself to be persuaded by the Phoenix Railway company of Arizona, which is in a desperate financial straits, to sell the system to the city. The city will take over operation of the lines for a period of at least a year, during which time it will be able to study the system and make such improvements as it may desire. The State Commission has set a schedule of fares, from 4 to 10 cents per ride, and has ordered the car company to have ready for moving. Possibly these

**FLAMING FRENCH POSTERS  
TABOO AT LEGION CONCLAVE**  
(BY A. P. NIGHT WIRE)  
OMAHA, Sept. 21.—Omaha will be just a mid-western city  
dressed up in bunting and flags, devoid of any Parisian air of  
snappy French posters of wine and girls, when the American Leg-  
ion convention meets here next month. That was the promise  
of Legion convention committeemen to W.C.T.U. women today.  
The Society of Forty and Eight, which announced plans for past-  
ing colorful bills against barnyards, billboards and other blank  
spaces, has recalled the order.

**PUNCH IN JAW HELD  
REDRESS FOR INSULT**  
(EXCLUSIVE DISPATCH)  
WORCESTER (Mass.) Sept. 21.—A punch in the jaw may properly  
be the gist of a decision made in District Court by Judge Samuel  
Utley when Roy Bridgeford, 24  
years of age, of Leicester was ar-  
raigned on a charge of assault and  
battery on Harold Nideur also of  
Leicester. Bridgeford freely ad-  
mitted striking Nideur who lost  
two teeth in the encounter. When  
he explained that Nideur had in-  
sulted Mrs. Bridgeford Judge Utley  
ordered him freed.

**LAUD ACTS  
OF TEXAS  
GOVERNOR**  
Mexicans Present Gold  
Cross to Mrs. Ferguson;  
Clemency Praised  
(EXCLUSIVE DISPATCH)  
SAN ANTONIO (Tex.) Sept. 21.—  
To express their high appreciation  
for the many acts of executive  
clemency repeatedly shown Mexi-  
can citizens serving prison terms,  
and whom you were kind enough  
to pardon," the Mexican Blue  
Cross, headed by Consul-General  
A. P. Carrillo, presented Gov.  
Miriam A. Ferguson with the cross  
of merit, in an elaborate presen-  
tation ceremony here. A huge  
gold offering accompanied the  
gold cross presented the Governor.  
Carrillo acted in both his capacity  
as official representative of the  
Mexican government and also as  
president of the Blue Cross, an or-  
ganization serving the needs of  
Mexican nationals with residence  
in the United States, of which both  
the Governor and her husband  
were made honorary members  
some months ago.

**PARK EXTENSION  
PLANS OPPOSED**  
Senate Committee Hearing  
Stirs Lively Clash  
Sheep Industry Attacked by  
Bay City Speaker  
Similar Meeting Scheduled  
for Los Angeles  
(BY A. P. NIGHT WIRE)  
SAN FRANCISCO, Sept. 21.—  
Opponents and proponents of the  
proposition to withdraw from the  
forest lands area of California  
some 700,000 acres for inclusion in  
the Yosemite and Sequoia national  
parks clashed today at the first of  
a series of public-land hearings  
called at the request of the Senate  
Committee on Public Lands to  
make recommendations to guide  
the committee in its actions at  
Washington. The hearings here  
will be concluded Wednesday and  
on Thursday a similar meeting is  
scheduled to be held in Los An-  
geles. Stephen T. Mather, director  
of national parks, is here for the  
meeting.  
W. B. Lewis, superintendent of  
Yosemite National Park; Duncan  
McDuffie, member of the conserva-  
tion committee of the California  
Development Association, and  
George G. Radcliffe, chairman of

**ADVERS MESSAGE  
ANGERED WIFE**  
Bostonian Sees Telegraph  
Company Over Wire  
Signed "Rose"  
BOSTON, Sept. 21.—A  
telegram which roused his  
wife's ire and jealousy is the  
basis of Samuel Rogers' suit  
against the Postal Telegraph  
Cable Company for \$75,000.  
Rogers is a Boston man  
and his suit is filed in Suffolk  
Superior Court.  
He asserts that his wife  
opened the telegram which  
read: "Samuel Rogers, No.  
21 Waumbuck street, Rox-  
bury. Don't phone. Are you  
still here. Come to see me,  
need some money, Rose."  
He asserts that the tele-  
gram caused a break in his  
family and that he was hu-  
miliated and disgraced.

**NEVADA STOCKMEN  
IN ALLIED HEARING**  
(BY A. P. NIGHT WIRE)  
RENO (Nev.) Sept. 21.—The  
subcommittee of the Senate Com-  
mittee on Public Lands and Sur-  
veys began taking testimony here  
today in its investigation of the  
problem of the stockmen in their  
relations with the public domain  
and the forests. The hearing was  
called early today by Senator Stan-  
field of Oregon, chairman of the  
subcommittee.  
Vernon Metcalf, secretary of the  
Nevada Land and Live Stock As-  
sociation, was the first witness. He  
read a statement prepared by  
George B. Russell, president of the  
association, setting forth the views  
of the association and suggestions  
for remedies by legislation.  
Members of the State Board of  
Equalization, consisting of assess-  
ors from all counties in the State,  
adjourned their meeting at Carson  
City to attend the land hearing  
here.

**YUBA RIVER WATER  
CONTROVERSY HEARD**  
(BY A. P. NIGHT WIRE)  
WASHINGTON, Sept. 21.—The  
Federal Power Commission today  
heard arguments in the contro-  
versy over the disposition of water  
in the Yuba River, California, but  
reserved its decision. Counsel pre-  
sented the case of both the Ne-  
vada county irrigation district and  
the Yuba River Power Commis-  
sion, the disputants in the case.  
The commission will meet later in  
the week to hand down its deci-  
sion.

**"DIRECT-U" will direct you

Bedspreads or any advertised  
product. Write or phone The  
Times, Metropolitan 0700.**

# LIQUIDATION SALE

High-Class Homesites and Groves

Now Offered Under Conditions and at  
Prices and Terms For Quick Sale—

Located in the Upland district, one of the best fruit  
sections in Southern California, with plenty of cheap  
irrigating and domestic water, good soil and all the  
advantages of a high-class suburban community, 5  
or 10 acres of fruit will make an ideal country home-  
site and a substantial income—By adding a few chick-  
ens, berries and a home garden, you can live like a  
king and enjoy life to the fullest extent—

THIS IS AN UNUSUAL BUY

Young groves (10 to 12 years old) in fine physical con-  
dition, will produce bumper crops from now on if  
given good care, two hundred boxes to the acre  
would not be an unreasonable expectation with prop-  
er management, and based on present prices this  
should net the grower about \$500.00 an acre. On the  
terms we are selling this property it should pay itself  
out from the crops after the first payment—

If you desire a beautiful homesite with income in  
Southern California, this is your opportunity—The  
amount of acreage for sale is limited so do not delay  
if you are interested. For full details write—

Please write street address plainly—

of bright, cheerful pattern floors  
—decorators use them for smart homes

The new pattern floors of Armstrong's Linoleum are now showing at local stores. They add colorful beauty to every room, and give charming distinction to the entire house. Decorators and architects approve and use them. Inexpensive. Permanent.

An Armstrong's Linoleum Floor No. 3081 for the bedroom

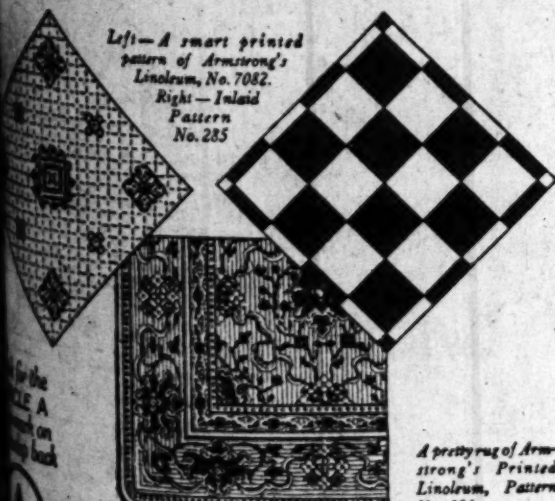

Laid in a day—but laid for a lifetime

These new and better floors are cemented over a layer of builders' deadening felt. No tacks or brads; the edges and seams are sealed with waterproof cement.

No dirt-harboring joints—nothing to scrub. Just a smooth, crack-free surface that requires only a daily dust-mopping to clean it, only a twice-a-year waxing and polishing to keep it permanently beautiful.

Don't miss this opportunity to see these new floors. Learn how surprisingly little it will cost to add lifelong beauty to your entire home.

- Which of your rooms need new floors?
- Armstrong's Printed Linoleum.**  
Inexpensive—but how it wears!  
For the upstairs rooms, for the kitchen, for the bathroom—for any room in which you would like a pretty floor at an even lower price than a floor of Armstrong's Inlaid Linoleum. A damp mop takes the place of the usual scrubbing brush.
- Linoleum rugs—Printed or Inlaid**  
Armstrong's Linoleum Rugs are for those who rent or for those who want inexpensive rugs that are bright and attractive. They simply have no equal for wear, for beauty, for saving housework.
- FREE Booklet on home decoration**  
Hazel Dell Brown's latest contribution is entitled "The Attractive Home—How to Plan Its Decoration." Contains photographs and color drawings of model interiors. Just off the press. Send for it.
- How much would you like to pay?**  
Floor designs in Armstrong's Linoleum are unusually distinctive, yet they cost no more. They come in a simple range of prices; in many patterns; in inlaid, plain, printed, and genuine linoleum rugs.
- These inlaid tiles, for instance—**  
Pattern No. 285, illustrated, is only one of 171 inlaid patterns. These tiles have been hand-set into a heavy burlap back. There are many beautiful patterns in Armstrong's Moulded Inlaid Linoleum, too. The colors go clear through to the burlap back.
- Plain linoleum—practical colors**  
Some women prefer these soft, rich, plain colors to a pattern floor. You can have Armstrong's Linoleum in plain blue, green, black, browns, and grays.

A pretty rug of Armstrong's Printed Linoleum, Pattern No. 886

## NOTICIAS MUNDIALES DE ULTIMA HORA

En obsequio a nuestros numerosos amigos de habla española, y para beneficio de los lectores americanos de "The Times" que estudian las lenguas, publicamos diariamente esta columna en castellano, con un extracto de las más importantes noticias de última hora.  
Buena parte del futuro progreso de Los Angeles, que es la metrópoli de los Estados Unidos que más cerca se halla a territorio latino-americano, habrá de depender de las relaciones que logremos establecer con nuestras hermanas, las repúblicas del sur. Para que lleguen a ser enteramente cordiales, no hay nada tan importante como que nuestros ciudadanos se familiaricen con la lengua castellana. Tan se dan cuenta de este hecho nuestros habitantes que hay al presente más de 25,000 personas que estudian español en Los Angeles. A ellas les conviene leer todos los días esta columna, en la que encontrarán español correcto y enteramente moderno.

La señora Velma Tibbitt, de 29 años, quien, al decir de los tenientes detectives Friday y Scholl, de la guardia Hubbard, no niega ser la reina de los ladrones de automóviles, fue apresada ayer por los policías citados, y la tienen a disposición de las autoridades de Dodge City, Kansas. Según informa la policía, el marido de la señora Tibbitt está ya en la penitenciaría federal de Leavenworth, por haber conducido automóviles robados de un Estado a otro. Dieron los oficiales policíacos que ha confesado la señora haber estado trabajando con asociados desde que cayó preso su marido, y que su cuartilla se ha robado como unos 250 coches.  
Buscan a los propietarios de una "Hacienda de Bebes".  
La pista de la señora y la señora Luis Zamora, propietarios de una "hacienda de bebes" en Tracy, y acusados del homicidio misterioso de un huésped cuatro años, que tenían a su cuidado, llevó a la policía a Oceanide, donde se dice que la pareja fue vista hace unos cuantos días. Durante todo el día siguieron infructuosamente las huellas del matrimonio, hasta Ventura y Santa Ana, al "Marshall" suplemento. A. F. Roan y el investigador Van Vranken, de Tracy, y el teniente sheriff Bent, de Los Angeles, designado por el Capitán Fox, para ayudar a las autoridades de la población del norte.  
Charles Infantiles para Chiquillos de Escuela.

## Número 82

—Rosita, voy a tratar de contactarte en español alguna de las historietas (—Rosita, I shall try to tell you in Spanish some of the stories of the "Hacienda de Bebes" (read) en un libro que se llama "Cuentos Históricos para las Clases Elementales" (Historical Stories for Primary Grades), escrito en inglés por unos autores americanos, cuyos nombres te diré pasado mañana (written in English by American authors whose names will tell you the day after tomorrow).  
Dice mi mamá que los cuentos que más instruyen (Mama says that the tales which instruct the most) son los que nos hablan de personas y acontecimientos históricos (are those which tell us of historical persons and events), pues, a la vez que nos divierten, nos enseñan algo de historia (since, they entertain us and, at the same time, teach us a little of History).  
—Creo que tu mamá tiene mucha razón (I think your mother is quite right), y espero que comiences mañana a contarme algún cuento de estos (and I hope you will begin telling me tomorrow one of these stories).

## GIRL SEEKS TO RECOVER CASH IN SUIT

Asks Return of Money for Hospital Stock Advanced Local Doctor

Alice A. Beale, former secretary for Superior Judge Fleming yesterday filed suit in Justice Court for the recovery of \$150 of \$200 she declared she advanced Dr. L. M. Driver, a subscriber for preorganization stock in a hospital association. The girl stated she did not receive her stock in the proposed corporation.  
Dr. Driver, it was stated, returned \$50 of the \$200 and was to refund the balance within thirty days. The balance was not paid, according to the plaintiff.  
The defense to the suit was that the proposed organization was a business proposition designed in good faith and in support of this the defense in the record the following certificate:  
"This is to certify that we, the undersigned, are contemplating the organization of an association to be formed for the purpose of erecting hospitals in Los Angeles, San Francisco and elsewhere, and we have been dealing with Dr. L. M. Driver to this end."  
"As soon as certain moneys, which were being collected at this time, have been paid in and other details arranged for, the plan is to formally incorporate a hospital association and to institute and develop the progress of promotion and expenditures."  
W. T. KENDRICK, JR., H. VICTOR WRIGHT, GAVIN W. CRAIG, ODA FAULKNER, JAMES G. URE.  
Difficulty in obtaining a permit to build a hospital on a site selected in addition to other unforeseen obstacles arising led to the resignation of James G. Ure and W. T. Kendrick, Jr., from the board of directors, they stated last night.

## NEWS OF CALIFORNIA

### TO FIND MOUNTAIN TOMB

**Searching Party Plans Hazardous Trip Into Forest in Fresno County**

(EXCLUSIVE DISPATCH)  
FRESNO, Sept. 21.—Acting on a request by J. F. and G. W. Quigley of Oakland that a thorough investigation be made by Fresno county authorities into the circumstances of the death of F. J. Quigley of 1885 Alameda street, Fresno, Sept. 21.—Coroner John N. Lisle will lead a searching party into the mountains Wednesday.

### THREE SERIOUS ROAD ACCIDENTS

**Two Persons Badly Injured in Auto Smashes**

**Woman Survives After Train Hits Machine**

(EXCLUSIVE DISPATCH)  
OXNARD, Sept. 21.—Three serious accidents yesterday and today released the clutch of death in the injury of two persons and the serious injury of several others.

### TO STUDY PIGEONS

**Chaffey High School First in United States to Adopt New Course**

(EXCLUSIVE DISPATCH)  
ONTARIO, September 21.—Establishment at once, in connection with the agricultural department of Chaffey High School and Chaffey Junior College of agriculture, of a course in the scientific and practical study of pigeonizing in all its phases, particularly as it applies to squab breeding and marketing, was assured today when the Chaffey board of trustees formally approved the proposition and voted to appropriate \$1000 for its inauguration.

### CHILD IS DESERTED BY MOTHER

**Little Girl Tells Story of Parent's Wilful Absence to Santa Monica Police**

By a "Times" Staff Correspondent  
SANTA MONICA, Sept. 21.—With tears in her eyes and sobbing as though her heart would break, June Courtney, 10 years of age, related the story to Sgt. Eugene Randall of how she had been deserted by her mother more than a year ago and, when she saw her mother on a local beach this morning, how she had fled without even recognizing the broken-hearted child.

### FIRST COTTON IS SOLD AT AUCTION

**Prize Bale Brings High Price at Porterville**

(EXCLUSIVE DISPATCH)  
PORTERVILLE, Sept. 21.—Buyers and cotton operators from all parts of the San Joaquin Valley and growers from Tulare and Kern counties attended the auction of Porterville's first bale of cotton which was bid in by the Delta Farms Company for 50 cents per pound. Weighing 325 pounds, the bale thus brought \$25.50, in addition to a premium of \$115 subtracted by local business men several days ago.

### TRIAL OF OFFICIAL TO BEGIN

**Make Effort to Obtain Jury to Hear Charge Against County Supervisor**

(EXCLUSIVE DISPATCH)  
EL CENTRO, Sept. 21.—More than twenty veniremen were examined today in an effort to obtain a jury to try Supervisor of San Diego, J. D. Jennings, on charges of conspiracy to defraud the county of \$100,000.

### Set Date for Election in Kern County

**BAKERSFIELD, Sept. 21.—To determine whether Supervisor B. McFarland shall be recalled from office, in response to a petition from residents and voters of the First Supervisorial District, the Board of Supervisors today set recall elections for October 25. Recall proceedings had their inception following the resignation of McFarland to the effect that the use of stickers or inserted slips bearing the name of McFarland, or the election returns had been tampered with, to be elected by a majority of the voters of the district, inserted on the ballot in the form of a printed sticker. The incumbent contested, in the Superior Court, the right of the voters to insert the name of McFarland on the ballot. Contrary to what was believed to be the will of the people, the election returns were held invalid and J. B. McFarland was issued a certificate of election.**

### Driver Flees After Causing Bad Accident

**By a "Times" Staff Correspondent**  
VENICE, Sept. 21.—Police are today searching for a hit-and-run driver who, early this morning, caused serious injury to Lora Lee Moore, 13 years of age, 4094 1/2 Buena Vista street, when he drove his automobile head-on into the car in which the injured girl was riding.

### Find Worker Dead by Side of Road

**ALHAMBRA, Sept. 21.—Michael Teahan, 37 years of age, an employee of the Los Angeles Gas and Electric Company, was found lying near the roadside at El Monte and California streets, where he died this afternoon, unconscious and bleeding profusely from the mouth. He was rushed to the Alhambra Hospital, but died on the way. The body was removed to the mortuary of F. A. Utter & Son.**

### Charges Disloyalty in Will Contest

**SANTA BARBARA, Sept. 21.—Charging that persons interested in overthrowing the established government of the United States used influence upon James L. Barker, wealthy Santa Barbara man, to cause him to will his quarter-million dollar estate to them, Henry L. Barker of New Bedford, Mass., today filed contest of the will.**

### LABOR CONVENTION OPENS AT SAN DIEGO

**SAN DIEGO, Sept. 21.—The twenty-third annual convention of the California State Federation of Labor opened this morning at the Long Beach Hotel with a general assembly attended by more than 100 delegates from the various unions of the state. The convention was held at 10 o'clock in the evening hall, with President O. H. Baker presiding.**

### CITY IN HOLIDAY ATTIRE

**Santa Ana All Dressed Up Ready to Welcome World to the most expansive display of products of the region ever shown, in the Orange County Fair, which opens a five-day run tomorrow. The grounds comprise five blocks fronting on Fifth street near Poinsettia, with five blocks of the business hub of the city.**

### Auto Thieves Raid Whole Neighborhood

**ALHAMBRA, Sept. 21.—Not satisfied with breaking into the garage of S. F. Hamilton, 3135 Poplar boulevard, burglarizing an expensive automobile last night, the thieves visited two other garages in the same block and took from each room full of rags and rima, the police reported today.**

### Club Woman Dies

**ALHAMBRA, Sept. 21.—Mrs. Nellie B. Needham, prominent in local woman's club and church circles, is dead at her home, 123 West Main street, after an illness of several weeks. Funeral services will be held at the Church of the Pioneers, Forest Lawn cemetery, Wednesday afternoon at 2 o'clock.**

### Valuable Holdings

**Huntington Park School District Worth Millions**

(LOCAL CORRESPONDENCE)  
HUNTINGTON PARK, Sept. 21.—Valuation of the school property in both the Huntington Park Union High School district and the Huntington Park city school district has been given out by J. Reed, business manager of the high school district, and W. L. Stuckey, superintendent of the city school district.

## PLANS HOSIERY FACTORY HERE

Mills, Costing \$500,000, Will  
be Erected in Hollywood  
Will Furnish Employment for  
About 400 People

"Holly Knit" and "Calknit,"  
Brands Manufactured

Plans for the establishment of  
a new hosiery mill in Hollywood  
have been completed by the Hol-  
lywood Silk Hosiery Mills, accord-  
ing to an announcement made yes-  
terday by J. H. Schmitt, president  
of the company and a leading fig-  
ure in the industry.

Construction of a new four-story  
factory building at the corner of  
La Palms avenue and Santa Mon-  
ica boulevard will be started with-  
in a few days and it is expected  
that the building will be ready for  
occupancy about January 1, 1926.

The building when completed, will  
be modern in every respect.  
New modern machines and equip-  
ment are being received which will  
be used in addition to the equip-  
ment now operating in Hollywood  
boulevard. When the factory is  
completed and the new machines  
and equipment installed the com-  
pany will have one of the finest  
and best-equipped hosiery mills in  
the country, representing an ex-  
penditure of more than \$500,000.

The new mills will furnish em-  
ployment for approximately 400  
people and the monthly payroll  
will be in the neighborhood of  
\$20,000, stated Mr. Schmitt. The  
company will manufacture and  
distribute hosiery under two brands  
known as "Holly Knit" and  
"Calknit," both of good quality silk  
hose.

Low power costs and ideal la-  
bor conditions are cited as con-  
tributing factors which should make  
Southern California the textile  
center of the world.

"Consumption is also  
rapidly developing on the Pacific  
Coast and the demand for silk ho-  
siery reaches stupendous figures.  
Los Angeles is recognized as the  
leading silk consuming city in the  
west."

The officers of the Hollywood  
Silk Hosiery Mills are as follows:  
J. H. Schmitt, president; Clarence  
Hudson, vice-president, and Roger  
Jones, secretary and treasurer.

**Vancouver Cash**  
**Grain Board of**  
**Trade to Open**  
(EXCLUSIVE DISPATCH)  
VANCOUVER (B. C.) Sept. 21.  
This city will become the only  
western trading place for grain on  
October 1. On that date a cash  
grain market will come into exist-  
ence here, and will function with  
an afternoon session before a call-  
board. The market will be unique  
among those of the continent. It  
will operate in a city which is at  
once a trading place for grain and  
a terminal point for export com-  
modities. It will combine the features of Winnipeg  
and Montreal, or Chicago and New  
York.

## MERCHANTS RUN BUSSES

New York Department Stores Operating Free Ride  
Systems to Outlying Towns; Is Experiment

Ingenious real estate salesmen seem to have taught the store-  
keepers something. On the theory that people are always willing to  
take something for nothing, the subdivisions in Southern California and  
Florida have sold millions of dollars' worth of property by offering free  
motor-bus rides. There is no obligation to buy, yet the real estate  
salesmen get the people to the property and sell enough of them to  
make the venture a success. Salesmanship of this kind is worth an  
experiment in other fields, so some of the New York department stores  
reason, for several of them have established experimental lines running  
out of the city into the smaller communities.

It remains to be seen whether the  
New York department stores  
are more successful with this ex-  
periment than the merchants in  
Southern California and elsewhere  
who have established branch  
stores. Under the branch store  
plan, the merchant takes the store  
to the buyer, while under the  
transportation plan, the buyer is  
brought to the store.

BRANCHES UTILIZED  
Branch stores of the large shoe,  
furniture, millinery and dry goods  
concerns achieve most of their  
success from the disinclination of  
shoppers to penetrate into the  
heart of downtown traffic. By dis-  
tributing their branches in the  
less densely populated sections,  
the buyers economize on time and  
at the same time obtain the same  
quality of merchandise the down-  
town stores offer. Other advan-  
tages in the shape of personal ac-  
quaintance between the buyer and  
the branch-store employees and  
more amiable credit relations ac-  
cruing in favor of the branch  
store.

Nevertheless, the large merchan-  
dising companies have learned that  
shoppers are attracted to the stores  
that offer the most convenience.  
Rest rooms, travel service, infor-  
mation bureaus, restaurants, mu-  
sical concerts, fashion shows and  
other features have become incor-  
porated as part of the standard  
service in the large metropolitan  
stores, all in response to the  
growth of competition.

Introduction of these innovations has,  
of course, increased the cost of op-  
eration, but the volume of busi-  
ness presumably has increased suf-  
ficiently to swell the net profits.  
While the complaint is true that  
extra services are becoming a bur-  
den on business, the increase in  
metropolitan competition undoubt-  
edly is responsible for the contin-  
uance of the practice. The mer-  
chants are finding it more and  
more difficult to compete with the  
extended radius of their selling ter-  
ritory, but it seems that in New  
York the stores prefer to bring the  
shoppers downtown than take the  
store to them. Perhaps they be-  
lieve that the motor-bus ride will  
appeal to the shoppers who like to  
venture downtown every so often,  
but hesitate because of the diffi-  
culty in parking automobiles or be-  
cause of the bother of riding in the  
street cars or the subways.

SMALL STORES LOSE  
The Florida real estate promoters  
demonstrated that people will ride  
long distances if the right oppor-  
tunity is offered. Motor-bus trips  
were made regularly between Chi-  
cago and Florida for the benefit of  
possible real estate buyers, which  
apparently shows that the New  
York department stores will have  
little difficulty in persuading shop-  
pers in the smaller outlying com-  
munities to accept free rides. Of  
course, a certain proportion of the  
riders will take advantage of the  
free facilities to ride down free of  
charge to transact other business,  
but the greater number probably  
will recognize the obligation to the  
store providing the service. Whether  
the proportion of riders who are  
actual buyers is large enough to  
be demonstrated.

Between the branch-store sys-  
tem and the new plan of free  
transportation, it is likely that the  
neighborhood store and the small  
merchants in the outlying cities  
will suffer severe losses. The down-

**Larutan Fuel**  
**Bonds Will be**  
**Offered Soon**  
Purchase of a new issue of  
\$2,000,000 Larutan Fuel Company  
first mortgage 7 per cent sinking  
fund gold bonds by F. J. Isman  
& Co., A. M. Lampert & Co., Inc.  
and Morgan, Livermore & Co., was  
announced yesterday, and offering  
is expected at an early date.

The bonds are secured by a  
closed first mortgage on the com-  
pany's pipeline system, and all the  
property, equipment and appurten-  
ances. The present funded debt  
consists of \$2,000,000 three-year  
7 per cent notes which will have  
been retired upon completion of  
the present financing.

Replacement value of the com-  
pany's property is conservatively  
estimated at a sum largely in ex-  
cess of the funded debt. A liberal  
sinking fund is in operation based  
on the gas transported through  
the pipeline system, sold and paid  
for during the preceding month,  
with a minimum of \$25,000 monthly,  
or \$300,000 annually beginning  
September 1, 1925.

It is not unlikely that the bonds,  
as offered by the bankers, will  
carry with them some provision  
for substantial participation in the  
nouncement said.

**London Daily Radio**  
BY ARTHUR W. KIDDY  
BY WIRELESS-EXCLUSIVE DISPATCH  
(Copyright, 1925, New York Evening Post, Inc.)  
LONDON, Sept. 21.—Financial  
markets were dominated again to-  
day by the influence of easy mon-  
ey. A generally cheerful tone pre-  
vailed at the start. Business was  
checked to some extent by ap-  
proach of the usual settlement pe-  
riod, although a note of cheer  
helped sentiment. The Moscow sit-  
uation also curbed operations to  
some extent, more attention being  
directed to this development by the  
financial district. The problem evi-  
dently is severely taxing the  
League of Nations.

## STANDARD CUTS PRICE OF CRUDE

Slash Ranges from 10 to 35  
Cents a Barrel

Separate Schedule Made for  
Nineteen Fields

Slight Advance Announced  
on Highest Gravity

The Standard Oil Company yes-  
terday revised the price of crude  
oil in California, leaving an indi-  
vidual price schedule for each of  
the nineteen producing districts of  
the State. The price revision af-  
fected heavy reductions in the  
price of low-gravity oil and slight  
increases in the high gravities in  
one or two of the northern fields.  
The standard, which has never be-  
fore issued a separate schedule for each  
field, until a few years ago price sched-  
ules distinguished between Southern  
California oil and oil from the  
northern fields, but in 1923 the  
poised price was the same for each  
gravity in all the various fields,  
representing an average value, al-  
though the quality of oil in the  
same gravity in different fields var-  
ied greatly.

In several of the major fields of  
Southern California the price re-  
ductions range from 25 cents per  
barrel in the case of the base price  
for 14 gravity crude, to 30 cents  
for 42 gravity crude. In the Mid-  
way-Sunset-Elk Hills fields of the  
San Joaquin Valley the base of  
crude is reduced 25 cents a barrel,  
with no decrease for the very light  
grades.

A complete list of the new prices  
is attached:  
Midway Hill field: 14 deg. gravity, \$1.10 per bar-  
rel; 16 deg. gravity, \$1.05 per barrel; 18 deg. gravity,  
\$1.00 per barrel; 20 deg. gravity, \$0.95 per barrel;  
22 deg. gravity, \$0.90 per barrel; 24 deg. gravity,  
\$0.85 per barrel; 26 deg. gravity, \$0.80 per barrel;  
28 deg. gravity, \$0.75 per barrel; 30 deg. gravity,  
\$0.70 per barrel; 32 deg. gravity, \$0.65 per barrel;  
34 deg. gravity, \$0.60 per barrel; 36 deg. gravity,  
\$0.55 per barrel; 38 deg. gravity, \$0.50 per barrel;  
40 deg. gravity, \$0.45 per barrel; 42 deg. gravity,  
\$0.40 per barrel.

Midway Hill field: 14 deg. gravity, \$1.10 per bar-  
rel; 16 deg. gravity, \$1.05 per barrel; 18 deg. gravity,

## A First Mortgage Bond in the Heart of Chicago

Careful investors seeking a  
sound geographical diversifica-  
tion for their bond holdings,  
will find JEWELERS BUILD-  
ING OF CHICAGO First Mort-  
gage 6% Sinking Fund Gold  
Bonds, due 1950, an attractive  
investment.

These bonds are secured by a  
direct first mortgage on 22,624  
square feet of land owned in  
fee, together with a magnificent  
40-story shop and office building  
now being erected thereon to  
house the Jewelers' Association  
of Chicago and allied trades.  
The total appraised value of the  
property is in excess of \$11-  
700,000, making these bonds less  
than a 60% loan.

Property is located on the south-  
west corner of North Wabash  
Avenue and East South Water

Street near the center of Chi-  
cago's greatest new develop-  
ment, only one block from the  
Michigan Avenue bridge, and  
two blocks from Marshall  
Field's, the new Tribune Tower,  
Wrigley Building, etc.

Net earnings of the building ap-  
plicable to bond interest have  
been conservatively estimated at  
more than 2.14 times maximum  
annual interest charges on this  
issue. Ready marketability is  
assured through the operation of  
a Sinking Fund which will re-  
tire 54% of the bonds before  
maturity.

Priced at 100 and interest, these  
bonds offer an exceptionally  
high-grade First Mortgage in-  
vestment, yielding 6%. Present  
California Personal Property  
Tax will be refunded by the cor-  
poration.

We shall be pleased to mail you detailed information on request.

## Selected Securities

A few selections from our list  
**Beldere Water Corporation**  
First Mgt. 6 1/2% Bonds  
Secured by First Mortgage on properties  
valued at over twice total of all bonds.  
Serves nearly 50,000 people living ad-  
jacent N.E. boundary of Los Angeles. Net  
earnings twice bond interest charges.  
Due 1944—Yielding 6.50%  
**Sun Realty Co.**  
1st Mgt. Leasehold 6 1/2% Bonds  
Secured by new 11-story Building now  
under construction extending whole block  
Flower to Figueroa on Seventh. Entire  
structure leased to Barker Bros. at a sat-  
isfactory and profitable Net Rental.  
Due 1945—Yielding 6.50%  
**Coast Valleys Gas & Electric**  
7% Preferred Stock  
The Company owns and operates electric,  
gas and water properties serving all of  
Monterey County and additional territory  
adjacent. Net earnings are at the rate  
of over 3.6 times dividend requirements.  
Price to Yield 7.00%  
**Brownstein-Louis Realty Co.**  
First Mortgage 6 1/2% Bonds  
Secured by property owned in fee at  
corner of Eighth and Figueroa. Improved  
with modern store and factory building  
entirely leased at satisfactory rental to  
old established concern with AAA rating.  
Due 1944—Yielding 6.50%  
**Earl Fruit Company**  
First Mgt. 6 1/2% Bonds  
Company in successful operation for 35  
years. Covers every phase of the fruit  
business. About \$2000 of assets behind  
each \$1000 bond. Net earnings average  
over 3 times interest for past 5 years.  
Due 1938—Yielding 6.80%  
**Central & Southwest Utilities Co.**  
\$7 Prior Preferred Stock  
Company, thru subsidiaries, serves 200  
communities having population of over  
1,000,000 in central and southern states.  
No Funded Debt. Under Insull Manage-  
ment. Listed on Chicago Stock Exchange.

YOUR interest begins today!  
Bonds observe no holidays. They work 365 days a year. They pay interest from the day you invest your savings in them whether the first of the year, first of the month or first of the week.  
When you sell bonds, they will have earned interest for you up to the day you sell.  
Invest your money where it works every day.  
Your savings increase faster if you save with bonds.

We shall be glad to tell you about bonds with- out obligation to you, upon receipt of your

**ONLY A SMALL PORTION OF THE**  
**POTENTIAL MARKET FOR THE**  
products of the great Western Milling Corporation has been developed by the Company. Under the guidance of the same men who are responsible for the present enviable position of the Company and its products, a steady increase in volume is proposed.

Based on past demand, and upon the fact that practically all of the products are controlled exclusively by the Company, the increased business depends merely upon the ability to care for it.

In order to care for greater volume 5000 units consisting of 3000 shares of Class "A" 5% Preferred and 5000 shares of Common are offered —\$125 per unit.

Write or phone for full particulars

**NEW YORK CURB**  
Prices Report  
(BY A. P. MURPHY WIRE)  
NEW YORK, Sept. 21.—Stock prices headed upward at the opening of today's curb market when special buying movements developed in a number of industrial and specialties, but they turned irregular later in sympathy with a general reaction on the "big board." Public utilities were the hardest hit, National Power and Light breaking 7 points and Electric Bond and Share, Lehigh Power and Securities, Power Corporation of New York, and several others yielded a point or two.  
Industrials presented several points of strength, National Tea soared 18 points to a new high record at 470 and then dropped back to 464 and Miller, Rubber and 15 points to a new top at 225 and then yielded to 220. Another outburst of buying in Gillette Safety Razor, apparently based on the report showing that sales in the first eight months of the year exceeded those for the entire twelve months of last year, sent that stock up 4 points to a new peak at 194. Nizer B also reached new high ground at 93 1/2, while Canada Dry Ginger Ale responded to the declaration of an extra dividend by advancing 1 1/2 points to 27 1/2. Southern Dairies, Amalgamated Leather also showed moderate gains, but Land Company of Florida broke 1/2 points to 80 1/2.  
Oils moved within rather narrow and irregular limits. The new Pan-American Western stock closed nearly a point higher at 35 1/2, but Vacuum dropped 1 1/2 points and several other former Standard Oil subsidiaries yielded fractionally.  
Collecting the closing quotations on New York Curb Market, furnished by Lucas & Bros., members of the New York Stock Exchange, 110 Nassau Street:

**FISHER'S WEEKLY INDEX**  
Prof. Irving Fisher's wholesale price index of 200 representative commodities and the relative purchasing power of money compared with monthly averages since January, the low in January, 1922, the peak of prices in May, 1920, and the basic 100 in 1913, follows:

Index	1913	1920	1922	1925
1913	100	100	100	100
1920	100	100	100	100
1922	100	100	100	100
1925	100	100	100	100

**Wheat Market Closes Higher on Heavy Buying**  
CHICAGO, Sept. 21.—Parity buying of wheat futures by houses with eastern connections continues to dominate the market, and while there was a small break early, the finish was about the top, with net gains of 1/4 to 1/2 cent. September finished at 1.52 1/2, December at 1.51 1/2 and May at 1.54 1/2. September and December were down 1/4 cent each on the crop early, with a strong rally later on short covering. Corn was 1/4 cent lower to 1/2 cent higher, September at 87 1/2, December at 87 1/2 and May at 87 1/2. Oats gained 1/4 cent for the day, while rye was 1/2 cent higher, September at 1.02 1/2, December at 1.01 1/2 and May at 1.03 1/2. The parity with which offerings of wheat futures have been absorbed by houses with eastern connections and the cause of the buying is a mystery to the trade, who are unable to account for the buying. In the face of what is regarded as an exceedingly bearish position, locals sold early and found offerings light when they tried to cover at the last. The Chicago-Wheat price difference widened slightly, as Winnipeg was heavy throughout the day and gained 1/4 cent, while Minneapolis was 1/2 cent higher, September at 1.02 1/2, December at 1.01 1/2 and May at 1.03 1/2. Foreigners show indifference to the strength in American markets and the short demand from abroad was slow, with net gains of 1/4 to 1/2 cent. In all positions, largely Manitoba, but including 125,000 bushels of durum. The seaboard market, however, is understood, do not include those of the Canadian ports. Wheat's shipment of 647,000 bushels was the smallest in many weeks, while exports on ocean passage decreased 1,415,000 bushels, to 22,285,000 bushels, the smallest on record for this season. Russia was reported as offering wheat abroad freely. Cash wheat quotations at Winnipeg dropped 1/4 cent, while the basis here was firmer on net winter and spring. Duluth has landed over 1,000,000 bushels of No. 2 northern spring wheat to Chicago, and it is expected that this will be delivered on September contracts. Northwestern interests were sellers of wheat futures here. Liquidation of a line of long September corn was largely responsible for the break in that delivery to a new low on the crop, and it carried the December along with it. September corn sold down to 85 1/2 and December to 85 1/2, after short covering caused a strong rally after a somewhat decline, and the finish was about the top. There was some talk of export business in soft corn, but quantities were not given. Cash basis was 1/4 cent lower, with country offerings to arrive in bulk for export. Oats were influenced largely by the action of corn, and while lower early, rallied toward the close, ending 1/4 cent higher for the day. Village supply increased about 710,000 bushels in the week, against 8,465,000 bushels last year, and the total is 41,222,000 bushels, against 33,198,000 bushels last year. Rye was weaker and sharply lower, with sales orders uncovered on the way down. September sold 70 1/2 and December at 80, both going to annual discounts under futures. Timothy sold 7.00 @ 8.00; clover, 20.00 @ 27.00 per 100 pounds; flaxseed, 1.01 per bushel. Trade in potatoes was small, but with light offerings it took but little consolation-house buying to advance prices, and the finish was 1/2 cent higher for the day, while rye was 1/2 cent lower and bellies 1/2 cent higher.

**RANGE OF PRICES**  
Wheat—Sept. 1.52 1/2, Dec. 1.51 1/2, May 1.54 1/2.

**A VISION OF POWER AND ITS REALIZATION**

**PURCHASE** of the control of the Western Power Corporation by the North American Company emphasizes once more the recognized value of California hydro-electric securities.

Twenty-four years ago the Great Western Power Company existed only in the vision of an engineer who saw the opportunity for a great storage reservoir at Big Meadows and the possibility of using an abandoned mining tunnel on the Feather River for electric development.

**BOND** issues underwritten by E. H. Rollins & Sons helped make this vision an established fact, so that today the annual gross earnings of Western Power Corporation, controlling Great Western Power Company and San Joaquin Light & Power Corporation, are over \$16,000,000.

These bonds have increased in value. Investors will remember that the Great Western Power 8 1/2% issues of five years ago were refunded at 7% and more recently at 5 1/2%. In this same period the annual net earnings of Great Western increased 39%, while its mortgage debt increased only 4%, and its electric generating capacity rose from 137,000 h. p. to 225,000 h. p.

This successful development of a California hydro-electric company and its recognition by Eastern investors were made possible by the earlier investors who believed in these California securities.

Our long experience as original underwriters of the bonds of many of the leading power and light companies throughout the United States, enables us to advise investors in the purchase of these sound securities.

We will be pleased to send you a copy of our booklet—Power & Light—if you desire it.

**Belding Bros. & Company**  
No Par Value Common Stock  
(No funded debt)

**Business:** This Company whose business was established in 1863, is the largest producer of silk thread in the United States, as well as a large manufacturer of broad silks. The Company's products are distributed by more than twenty thousand wholesale and retail dealers, located in every State in the Union, and the name "Belding" has long been a household word.

**Earnings:** For the six-year period ended December 31, 1924, earnings available for dividends, after depreciation and Federal taxes, were equivalent to approximately \$4.47 per share on the new capitalization of 415,032 shares of no par stock, and current earnings are running considerably above the early estimates. Dividends on the new stock have been inaugurated at the rate of \$3.00 per share per annum.

**Management:** The management of the business since its inception has been in the charge of members of the Belding family, who are responsible for its successful development. The principal executives will retain an interest in the stock of the Company and will continue in active management of its affairs.

The Company has earned a profit every year of the past quarter century, and has failed to earn a profit only once in its entire history of sixty-two years.

This stock is listed and regularly dealt in on the New York Stock Exchange.

**HOW TO BUY STREET BONDS**  
**The Fact**  
—that Street Bonds are conceded one of the best and safest investments on the market by experienced investors, in sufficient proof of the merit of these bonds.  
**There are**  
other considerations to be made, however, aside from the high yield, assured safety and tax exemption. The experience of the house, character of bonds and last but not least, the service your bonds will receive for ten years, should all be taken into consideration.

Market Lacks Definite Trend Pending Issuance of Federal Estimate

**By ROBERT J. FRITCHARD**  
The Superior Oil Company has its Anderson No. 1, the wildest well of Belvedere Gardens, down 700 feet, standing with surface casing yesterday. The well is located on Third and Pasadena avenue, off Third Calvary Cemetery.

**Test Well at West**  
Having completed three storage tanks with a combined capacity of 1700 barrels, the Harriman Jones Oil Company of Los Angeles expects this week to make a production test in its wildest well near Belvedere Gardens. The company, a heavy stockholder in the company and manager of the Virginia Hotel at Long Beach.

**Two Good Wells**  
The Chikan Oil Company, which has been conspicuous by its success in the Richmond-Torres, Linda district in the last few months, has now two more wells in that region, with a combined output of a day of about 500 barrels, according to field reports.

**Quit Wildest Well**  
The Huntington-Downey Oil Company is quitting its second oil well near Clearwater, according to reports. The well was drilled to 4781 feet before it was finally given up as hopeless. It found some showings of about 4200 feet, and set a four-inch water string at 3856 feet, but the showings failed to prove productive.

**Start New Well**  
The Equity Oil Company, which has been operating in the Newhall district for several years, is rigging up a new well in the same district on the Nash lease in that field, according to field reports.

**Well Shuts Down**  
The Union Oil Company has suspended operations in its well at Saugus, north of Newhall, according to official reports. The well was being drilled with cable tools, and reached a depth of 2904 feet before operations were halted. It was then being drilled with a 2 1/2 inch casing was set at 2821 feet. The bit was in hard shell, and the drilling was ordered stopped.

**BUSINESS TODAY**  
Violent Booms and Depressions Are Things of the Past, Says Roger Babson in Declaring That Coolidge's Election Last November Marked End of Deflation Period.

**By PAUL WILLARD GARRETT**  
Several reasons for this are named as follows:  
The first is that the Federal Reserve Board has the situation well in hand and its first job is to steady the boat and not let it tip too much on one side or the other.

**Advance Checked**  
As might have been surmised, the higher rates for money checked operations for the rise in the cost of carrying the stock. The suggestion that the Ford Motor Company, first heard several months ago, was revived. The automotive trade is improving, and the Ford Motor Company is expected to have a big year in 1926.

**Need of Further Conjecture**  
The New York Airbrake dividend will pass with the consent of the board of that company scheduled for tomorrow. That a reduction in the rate is to be made for a foreign exchange rate in the circles. The only question now is what the extent of the cut will be.

**Commission House Opinion**  
While showing a distinct turn in favor of caution in the matter of new commitments, was not outspokenly bullish. Customers were urged to take it all in all and to wait for a better time.

**Flurry in Money**  
Apparently local banks were unable to gather sufficient funds to meet heavy demands at the end of last week, which resulted in a run up of the money rate to 5 per cent, for again today loans were called to the extent of perhaps \$50,000, or \$40,000,000 in the putting scarcity money advanced to 5 per cent again, after renewals had been arranged at 4 1/2 per cent.

**Correcting Position**  
Needless to say, the deficit shown in the clearinghouse at the end of last week of more than \$1,500,000 will doubtless absorb all available funds at moderate prices for several days. Within a week, however, it is believed the mail will be restored in the market.

## OBREGON HERE ON VISIT; PANI POINTS TO NEW ERA

Ex-President to Finance Chief

be Guest at Lunch

Tells Hope on Pact

Alvaro Obregon, one of the picturesque strong men of Mexico and its former President, arrived in Los Angeles yesterday and will be one of the guests of the Chamber of Commerce at its luncheon Wednesday, where celebration of Mexico week here will reach its peak. It is his first visit here, he said, since 1919. He will leave for San Francisco Wednesday or shortly after and will be in the United States about ten days. He came on invitation of the Chamber of Commerce and local friends, and said his visit is for vacation purposes only.

"I wish only to be regarded as a farmer and am no longer in public life, so do not wish to discuss public affairs," Gen. Obregon said. He intends to grow some wheat to public life, and now I wish to devote my attention only to it again and recover my status as a farmer."

The general has 10,000 acres in his ranch at Caliente, 800 or 400 miles south of the border on the West Coast, and is devoting all his time to actual management of it. He has a large family. He is said to have 2000 acres of rice, which will be his principal crop. He intends to grow some wheat also, but will center his principal efforts on rice. About 400 persons are employed on his estate. Affairs of state and general economic development of the country in the past have been left entirely by him, he asserted, to those in power and so confined his remarks to other subjects.

The general once lived in Los Angeles. Mrs. Obregon formerly was a Los Angeles girl. He is credited with having given Pancho Villa the final blow that eliminated that disturber from Mexican internal affairs and so did much toward paving the way for peaceful development of the country.

Gen. Obregon is staying at the Van Nuys Hotel. He is accompanied by Enrique Torralba, his secretary, and Tomomoy R. Marquez, an aide.

Under the terms of the agreement, the government contracts to return to private management the four private systems with rolling stock in the same condition as when the government acquired control. The lines affected are the National Railways of Mexico, the Mexican Railways, the Tehuantepec Railway, the Mexico-North Western, Southern Pacific of Mexico, and the United Railways of Yucatan.

Four major highway systems, connecting Mexico City with the rest of the country, are to be returned to private management. The lines are the Federal Highway, the National Highway, the Mexican Highway, and the United Highway.

Three members of the party, Dr. Glen Levin Swiggett, who has directed the Mexican contest; Miguel Covarrubias, Mexican caricaturist; and Ygnacio Fernandez Esperon of the Mexican Department of Education, continued on their journey, reaching Los Angeles yesterday afternoon.

The party of three was welcomed at the Central Station by a committee from the Chamber of Commerce, the new Mexican Consul, Senor F. P. Siquiera, and representatives of the Mexican and American press of Los Angeles.

Dr. Swiggett expressed in glowing terms his satisfaction over the successful conclusion of the contest, which was begun as a rather uncertain venture last May.

## YOUNG MEXICAN ORATORS HAILED

Warm Welcome Extended to Winners of Contest

Officials and Schools Join in Greeting Quartet

Addresses Will be Given at Meeting Tomorrow

Welcomed by representatives of the city government, the Mexican Consul, the Chamber of Commerce, students of the Los Angeles high schools and a delegation of 300 or more citizens from all walks of life, the four winners of the Mexican oratorical contest arrived in Los Angeles from Mexico City last night.

The Southern Pacific Depot, where the young orators stepped from the train, rang with cheers as the youths were escorted through lanes of admirers by the official welcoming committee. They were driven immediately to the Biltmore, where they will reside during their week's stay in Los Angeles. Tomorrow night in the auditorium of the Los Angeles High School the young men will deliver the orations on constitutional government, which won them their honors in Mexico.

The contest in Mexico was along lines similar to those in the national oratorical contest on the American Constitution conducted on this side of the border. As part of the award in the Mexican contest, in which the secondary schools all over the Republic of Mexico participated, the winners in the Biltmore were given a free trip to Los Angeles.

## FOUR WINNERS

The four winners, who arrived in the city last night, included Antonio Martinez Baez, J. Jesus Castorena, Ramon Beteta y Quintana, and Ramon Beteta y Quintana. Others in the party accompanying the orators were Carlos Merino, representative of the Department of the Mexican government, and Antonio Vargas, representative of the Mexican Chamber of Commerce.

Among those who officially welcomed the delegation to the city were: Councilman Hall, representing Mayor Cryer; Baldomero A. Alama, commercial attache of the local Mexican Consul; Charles A. Cook and Patrick C. Campbell of the Los Angeles Chamber of Commerce; J. H. Smith of the Junior Chamber of Commerce and M. J. Moore, local representative of the Chamber of Commerce.

Probably the welcoming handshakes that touched the boys from below the border were the most enthusiastic. They were greeted by the high school pupils of Los Angeles, who were the first to greet them. They were then escorted to the Biltmore, where they will reside during their week's stay in Los Angeles.

## FIRST VISIT HERE

Between shaking hands, meeting new friends and renewing friendships, the four winners of the Mexican oratorical contest, who are on their first visit to Los Angeles, are now in the city. They are the first to visit here since 1919.

As was announced in The Times yesterday, the original plans called for the arrival of the delegation in Los Angeles on Sunday. When the champions reached El Paso on Sunday, however, elaborate preparations had been made for their reception in that city, including drives about the city, a dinner at the El Paso Hotel, and a reception at the National Palace.

The party of three was welcomed at the Central Station by a committee from the Chamber of Commerce, the new Mexican Consul, Senor F. P. Siquiera, and representatives of the Mexican and American press of Los Angeles.

Dr. Swiggett expressed in glowing terms his satisfaction over the successful conclusion of the contest, which was begun as a rather uncertain venture last May.

The party of three was welcomed at the Central Station by a committee from the Chamber of Commerce, the new Mexican Consul, Senor F. P. Siquiera, and representatives of the Mexican and American press of Los Angeles.

## PAY HONOR TO BRITONS IN BANQUET

Officers of Two Visiting Craft to Meet Business Men; Tars to Hollywood

Officers of the British warship Capetown and Canadian destroyer Patrician, now anchored in Los Angeles Harbor, will be the guests today noon of leading business and professional men of the city at a luncheon to be given in the ballroom of the Alexandria.

Among those who will act as hosts to the visiting naval officers are William M. Garland, George I. Cochran, William W. Mines, R. W. Friedman, Harry Chandler, Andrew Chase, R. H. Ballard, George G. Young, E. A. Dixon and Col. Walter C. Story.

## HAWAII CRUISE HONORS KHJ

Five Star Artists of "Times" Studio, Guests For Trip, Will Present Musicales Enroute

Five stars of The Times radio broadcast station have been named as honor guests of the annual Hawaiian excursion of the Los Angeles Chamber of Commerce, giving musical receptions aboard the steamer City of Los Angeles when it sails October 10.

The delegation, headed by Uncle John, will present a series of musical entertainments, as well as during the stops in the islands and in broadcast programs through KHJ, the big station of the Honolulu Advertiser.

With Uncle John will sail Mary Newkirk Bower, soprano; Bernice Neal, cellist; Mona Connor, concert pianist; Helen Mead Little, flutist, and Carolyn LeFevre, violinist. The artists have achieved a wide following for their splendid broadcasts from KHJ, as well as being recognized as leaders in the musical colony of Los Angeles.

The excursionists of the Chamber of Commerce, under the direct charge of Field Secretary Chas. P. Bayer, will spend six days on the ocean, which is in its most appealing mood at this time of the year. On board will be some of the most prominent people of the Southwest. Reservations are still being received at the offices of the field secretary and the steamship company.

Upon arrival in Honolulu on October 16, the party will be met by the civic societies of Honolulu and Hon. Wallace R. Farrington, Governor of Hawaii, at the National Palace. Sunday, the big ship will leave for Maui Island, with trips through the Hawaiian Islands, including the famous Hawaiian National Park and the Kilauea Volcano, where they will be personally guided by Thomas Holes, superintendent of the park, as well as a series of lectures by Prof. Jagger, volcanologist.

On Thursday, the 22nd inst., the ship again will make port at Honolulu, with three days given for the

## MINISTERS OF METHODIST CHURCH ALLOTTED POSTS

Salary Increases for District Superintendents Announced in Bishop's Report

Reappointment of all the district superintendents of the Southern California Methodist Episcopal Conference, at a salary increase from \$4200 to \$5000 per year, reappointment of Dr. E. E. Helms and Dr. Merle N. Smith of the First Methodist churches of Los Angeles and of Pasadena, respectively, and of many other popular pastors, featured the report of Bishop Charles Mead and his cabinet which followed an enthusiastic meeting of the conference delegates last night at the Westlake Methodist Church.

Following addresses by Mayor Cryer, Dr. R. H. Johnson of the board of temperance prohibition and public morals of the Methodist Episcopal Church, and Dr. Arthur Briggs of the California Antislavery League, the delegates pledged themselves to increase their efforts on behalf of "a dry California and a dry world."

"The bootlegger is not a child of God, may be undone by the law, but the lawless minority that would profit on the degradation of youth, but they have another 'think' coming," said Dr. Briggs.

Reporting on general conditions of the conference, Rev. O. W. Reinsch said that in this area there are now 84,444 members, a gain of 1305 over last year, and that there are 313 church buildings worth \$10,685,175, a gain over last year of \$897,000. Five new churches have been built. The total property valuation of the conference is \$12,258,000. The total salaries for ministers and their assistants and other officers last year was in excess of \$784,067. The conference churches have raised for all local work, exclusive of foreign missionary work, \$258,740.

PENSIONS ARE HIGH  
Dr. J. B. Green, the only charter member of the conference, pointed out that this conference pays more to its superannuated preachers than any other Methodist conference of the country.

(Continued on Page 5, Column 2)

## ABANDONED FARMS

Land is incredibly cheap around here. This island of Connatic is the most beautiful colony in the world and it is one of the most beautiful spots in the whole world. Yet I know of a farm of seventy acres with running streams, lovely woodland pastures, a fairly good two-story house and barns which is for sale for \$1200. The farm comes right down to the shores of Narragansett Bay. In California, such a place would be grabbed up as a bargain at \$50,000.

## SCHOOL OF MINES

ALUMNI WILL DINE  
The Southern California section of the Missouri School of Mines Alumni Association will hold a banquet next Monday evening at the University Club. S. E. Hollister will be toastmaster. Among the guests of honor invited is D. C. Jackling, the copper magnate of San Francisco, an alumnus of the school. The committee which is arranging the banquet includes E. E. Linton, H. F. Valentine and A. E. Gleason. There are seventy graduates of the school in Southern California.

## THE SINNER'S SONNET

BY E. D. CAHN  
(Copyright, 1925)

I love to go to the Postoffice and get a fatful of Dandy letters. I chirk right up when the Postman whirrs The bell. I smile my widest when the hotel clerk fetches A word of correspondence out with my key. I like to hear What my absent friends are up to and how they are doing, And whom. I like to hear the latest gossip from the folks At home and all about who is wed and who is dead; who is Getting rich and who is going broke and who is in worst At the moment. I like to hear about the crimes of the kids Next door and how the garden is coming along. I like a few Snapshots inclosed and am by no means averse to a check. I like to hear from my pals who roam and how they wish I Were with them. I like to be missed. I love getting letters But, OH, HOW I HATE TO SIT DOWN AND ANSWER THEM!

THEY THAT WAIT upon the Lord shall renew their strength; they shall mount up with wings as eagles; they shall run, and not be weary; and they shall walk, and not faint. —Isiah xl:31.

Honor Planned at Luncheon and Formal Dinner

Benefits of Competition Told by Dr. Swiggett

(Continued from First Page)

business is seen in the fact that the Chamber of Commerce appointed a special representative to appear in behalf of that body during the festivities of Mexico Week in the person of Manuel Mayo, one of the prominent Mexican business men of Los Angeles.

Dr. Swiggett carried a letter from El Universal, the Mexican national newspaper, in which the publication is enthusiastic in its praise of the results of the undertaking.

"So much good has been accomplished," the letter reads, "that the movement has done a great deal to increase the friendship and spiritual relationship existing between Mexico and the United States."

"This is probably the first time in history that two great newspapers in two countries have joined hands in a formal nation-wide movement to cement their people together in peaceful unity," Dr. Swiggett concluded his comment.

### OFFICIAL GREETINGS

The two Mexicans accompanying Dr. Swiggett, Miguel Covarrubias, representing the Mexican Minister of Foreign Relations, and Ynacio Fernandez Esperon, a member of the Mexican Department of Education, brought official greetings from their government to the city of Los Angeles.

Senor Covarrubias is a caricaturist of international reputation, his sketches appearing regularly in publications of several countries. For some time he has been contributing to Vanity Fair in this country where a page is devoted to his work each month.

While in Los Angeles, Senor Covarrubias will make a series of caricatures of prominent persons in Hollywood and other places which will appear in The Times.

Senor Esperon, known throughout Mexico under the name of Tita Nacho, is noted for his musical compositions, especially of Mexican folk songs. The Mexican Department of Education recently commissioned him to make an exhaustive study of Mexican folk songs, music and songs which are to be used in the schools.

The orators, after resting up a bit, were taken to The Times Building and given a glimpse of the processes involved in setting out a newspaper.

At 10 o'clock they were taken aloft where Uncle John holds forth over radio KFI and initiated into the mysteries of broadcasting. Uncle John proclaimed to the listeners-in that the four youths who have proved themselves the best orators in the schools of Mexico are now in Los Angeles for the week's visit which is part of the reward for their oratorical achievements. Each boy spoke a brief word of greeting to the people of Los Angeles, expressing his pleasure at the opportunity to visit his northern neighbors.

### GUESTS AT LUNCHEON

Elaborate preparations for the entertainment during the week of the orators and the Mexican government representatives have been made by the Chamber of Commerce, with the enthusiastic co-operation of the schools of the city. This morning the Chamber of Commerce will take them in hand to inspect some of the most important industrial plants of the city. At noon they will be the honor guests of

the Los Angeles Advertising Club at the Biltmore. This evening they will be entertained at a dinner at the Biltmore given in their honor by The Times. This will be attended by representatives of the different high school student bodies in the city, heads of Spanish departments in the high schools and colleges, representatives of the Junior Chamber of Commerce and others. After the dinner the party will see the production of "Whispering Wires" at the Morosco Theater, where boxes and special decorative and musical features have been provided through the courtesy of the theater manager, Henry A. F. Schroeder.

The most outstanding part of the week's program will be that of tomorrow when the Mexican party will be the guests of honor of the Chamber of Commerce at a luncheon to be given at the Biltmore at noon. This function will be attended by former President Obregon of Mexico, Senator Shortridge, Congressman Fredericks, Senor Baquerino, the new Mexican consul, as well as B. A. Almada, local Mexican commercial attaché. Invitations also have been extended to Alberto J. Ruiz, Mexican Minister of Finance, Gov. Richardson, Mayor Rolph of San Francisco, Juan O. Rangel, director of the Latin-America division of the United States National Bank, M. Kirk Mitchell of the Foreign Trade Association and many other prominent American and Mexican citizens.

### DELIVER SPEECHES

In the evening at 8 o'clock the champions will deliver the orations which won them their honors in the Mexican contest. This is in no sense a competitive event, but merely a repetition of the orations delivered in the contest in Mexico so Americans may get an idea of how the contest has been put over in that country. The orations will be delivered in Spanish, but provision will be made for such interpretation to the members of the audience who cannot understand the many other prominent American and Mexican citizens.

## Senate Public Lands Hearing Postponed Day

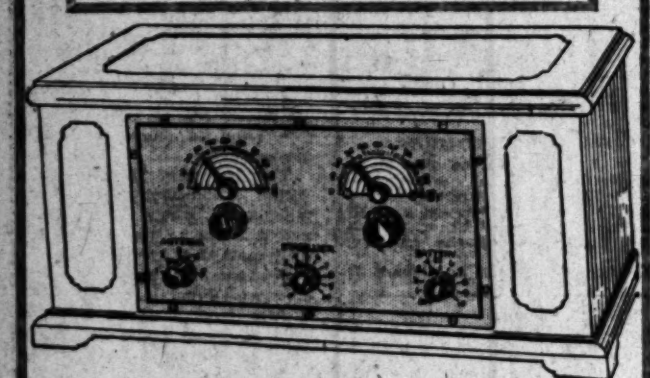

The Senate Committee on Public Lands and Surveys, which was to have held its hearing in Los Angeles Thursday, will not arrive here until Friday, according to a telegram received late yesterday at the Chamber of Commerce, from Dr. George P. Clements, head of the chamber's agricultural department, who is in San Francisco to attend the hearings there. A preliminary hearing, however, will be held in Los Angeles on Thursday, according to Dr. Clements. At this meeting facts will be arrayed and a program prepared for the members of the Senate committee when they arrive. The San Francisco hearing opens today and will continue Wednesday and Thursday.

The committee is hearing testimony on all questions relating to public lands, special attention being given to the administration of national parks and Indian reservations and to the control of the public domain and grazing on national forests.

Senator Robert N. Stanford, chairman of the committee, has requested the California Development Association to assist in furnishing witnesses to appear before the committee at its California hearings. The San Francisco and Los Angeles meetings were arranged for by Paul Shoup, chairman of the development association's conservation committee. The Los Angeles meeting will be held in the committee rooms of the Chamber of Commerce.

All Football Tickets sold here —and here ONLY.

## Introducing "David Grimes" Radio

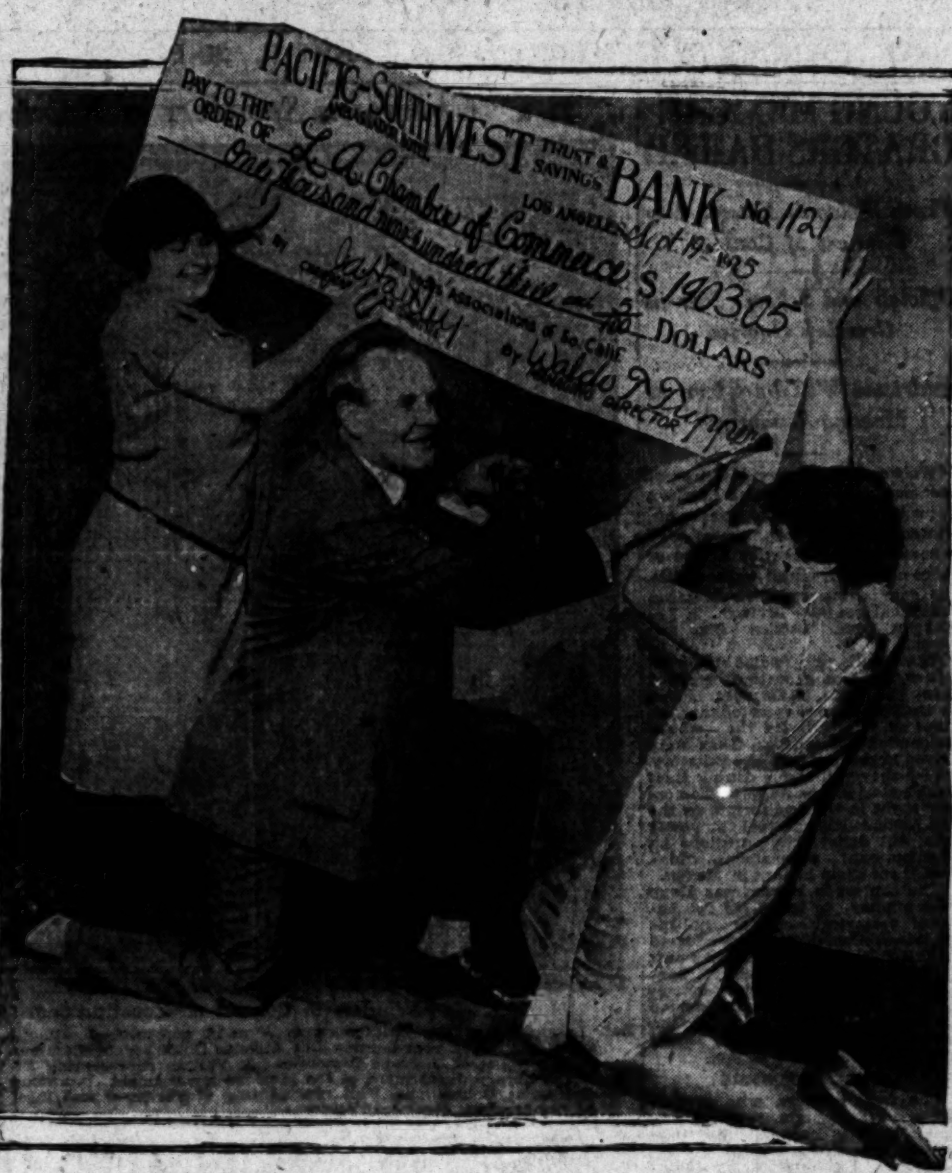

An innovation which produces 5-tube results, with 3 tubes, at 3-tube cost:

**\$85**

That price, mind you, includes tubes, batteries and loud speaker—COMPLETE. And installed!

As for tone, selectivity and ease of operation, the "David Grimes" is, in our opinion, far superior to any set heretofore offered at this price.

## Quake Fund Sent Largest Check Ever Written

Contribution of Radio Show. Radio Exposition just closed yesterday signed the huge check for \$1903.05 shown above. Lillian Monteague on the left and Virginia White are holding the check.

## PANI TELLS HOPE IN PACT

(Continued from First Page)

International boundary and with various sea ports, are under process of construction, the Mexican official said, to supplement the rail transportation systems. Contrary to reports from New York, the government will not seek a foreign loan for highway construction, he asserted, but will finance the work entirely from domestic revenues.

### BANK BRINGS HOPE

Mr. Pani is particularly sanguine on the salutary effects expected from the operation of the new Bank of Mexico. Heretofore, Mexico's commercial progress has been seriously hampered by the inadequacy of the monetary system. Metallic currency has formed the basis of circulation, and commercial activities have been restricted by the size of the monetary supply. Until the establishment of the new bank, which is now the sole bank of issue, several institutions possessed the power of paper issue, and the public lost entire confidence in paper money.

One of the government's most important tasks, the Finance Minister explained, is to restore confidence in paper currency. The new money, supported by a 50 percent gold and silver reserve, with this basis the currency system will have the necessary fluidity that is vital to business activities.

The Bank of Mexico also, somewhat along the lines of the Federal Reserve System, will disburse commercial paper and act as a clearinghouse.

In Mr. Pani's opinion, one of the important features of the bank is that it is entirely nonpolitical. Business men of high standing form the Federal Reserve System, and business men as a whole are according the bank united support. As the commercial and agricultural activities begin to reflect the operations of the new central bank, the Finance Minister expects that the government will be able to take care of its external obligations without trouble, provided a friendly agreement is reached with the international bankers. The debt agreement affects obligations totaling more than \$200,000,000, and provides for interest payments increasing \$2,500,000 yearly until an annual payment of \$25,000,000 is reached. Interest for the first year of the debt plan amounted to \$15,000,000, on which the government has been in default since July, 1924.

As testimony of what the Calles government has accomplished in the way of financial rehabilitation, Mr. Pani said that the entire floating debt of more than 40,000,000 pesos has been retired.

## COAST TOLD OF TRADE IGNORED

(Continued from First Page)

grown fourfold in the past ten years. There are now 12,000 Americans in that country, and 600 American firms located there. But the country is in absolute need of economic development. Railroad transportation is, perhaps, the greatest need. American business men can do no better than by helping China in this economic development. Once this is accomplished, the political troubles will take care of themselves.

Mr. Arnold is here for a three-day speaking engagement under the auspices of Secretary Hoover.

Congressman Lindeberger also spoke briefly at the luncheon meeting in favor of greater initiative on the part of Americans in the development of China.

## UNIQUE DONATION SENT IN

Exposition Gives Huge Document Worth \$1903.05 to Santa Barbara Relief Committee

What was believed the largest check ever written in Los Angeles went yesterday toward raising the fund from Los Angeles county for rebuilding quake-stricken Santa Barbara. It was for \$1903.05, representing a contribution amassed by the final performance of the 13th inst. of the third annual National Radio Exposition, proceeds of which were promised for the neighboring city.

The check's claim to largest dimensions lay in the fact that it measured five and one-half feet in length. Contributions were expected to be considerably heavier, he said, than other days, due to the energy now being displayed by campaign managers in different parts of the county and State.

## CHURCH TESTS ZONING LAW

(Continued from First Page)

A great many of whom would have been affected by an adverse decision. The case arose out of the arrest several months ago of David Norble, ice man, and W. W. Haslwanter, contractor. Both live in a district which has been classified as Zone B. Each had kept two trucks, which they used in their work, in their rear yards.

They were arrested on charges of violating the zoning ordinance, which prohibited the keeping of trucks in their yards. The case was taken to Superior Court, and after a lengthy hearing Judge Hahn took the matter under advisement and then ruled against the city on the ground that trucks were private vehicles and that their owners were therefore, entitled to keep them in their yards if they so desired. City Prosecutor Friedlander prosecuted the case.

## WINTER STARTS AT CITY WATER SOURCE

Winter is coming, officials of the municipal water department forecast yesterday, when word reached them from Big Pine in the Owens River Valley that a light snowfall was reported in the High Sierra.

The city water department forecast that the snow would melt and cause a heavy runoff of water into the city's reservoirs, which would be a welcome addition to the city's water supply.

## SANTA BARBARA FUND

The Times will receive, acknowledge by publication and deliver to the authorized agents of the Santa Barbara Relief Fund Association any sums sent to this paper as contributions to the \$1,100,000 fund to be raised by the association for emergency and charitable work in stricken Santa Barbara.

The Times itself started the fund with a donation of \$10,000 and takes this occasion to urge all loyal Californians, individuals, organizations, companies, etc., to give to the extent of their abilities. The need is urgent. Santa Barbara has pluckily refused eastern help in the belief that California will take care of her own.

Contributions may be made through any bank or newspaper, the Chamber of Commerce or the California Development Association, Garfield Building, Los Angeles. If sent to The Times, checks should be made payable to the Santa Barbara Fund.

Up to 4 p.m. yesterday contributions received by The Times were as follows:

Previously acknowledged	\$51,223.18
Mary Bowman	100.00
Mr. & Mrs. J. H. Fox	100.00
L. D. Fox	25.00
Mrs. J. H. Fox	5.00
H. J. Fox	5.00
Clarence Brown	5.00
A friend	5.00
H. J. Fox	5.00
Edward C. Perkins, Jr.	1.00
F. M. G.	1.00
Total to date	\$51,573.18

## SEAT SALE FOR JUBILEE BEGUN

Auditorium Will Present Brilliant Spectacle

Notable Stars on Program for Boost Fund

Revenue Will Go to Swell Tourist Influx

The sale of tickets for the Jubilee Pageant to be given at the Olympic Auditorium, Saturday evening, October 3, opened at Birke's Music Store, 446 South Broadway, yesterday, the lines being headed by many who had delayed purchasing tickets early for the recent mission benefit fund until the seats were all taken.

The auditorium stage, which will be used not only for this occasion, but also for the California opera season, is under construction in charge of Senor Ansaldo of the La Scala Theater, Milan. The recent transition of the auditorium into a theater was but a temporary arrangement to enable the production of the Mission benefit. But for the Jubilee Pageant the changes will be of a more permanent nature. Tito Schipa and other famous singers and concert artists have approved the plans.

The complete settings of the opera "Manon," painted by Senor Grant of Milan, will be used as a background for the evening's program in addition to other settings and curtain designs.

Members of the Theatrical Managers' Association of Los Angeles, L. E. Behrmer, president, and Alexander Bevan, the opera company's art director, have completed plans for the program.

President Dangler of the auditorium has arranged to lay rubber-padded carpets in all the cement aisles and runways, and is sparing no pains or expense in connection with the Jubilee Pageant arrangements.

Everyone approached in connection with the Jubilee Pageant program has tendered services without stint. Operatic, dramatic and screen stars are contributing their art to the program.

A additional ventilating apparatus is being installed to care for an audience of more than 10,000 people.

A unique precedent is being established in connection with the Jubilee Pageant in that every seat occupied will be purchased. Every dollar from this 100 percent sell-out will go to swell the total of the advertising fund being raised by the Southern California Forward Movement, all of which is to be handled by the All-Year Club and the Chamber of Commerce in a systematic campaign of advertising.

Harry M. Rolick

L. E. Behrmer

## STOPS CORN in 3 seconds

No matter where it is, how bad it hurts, how long you've had it, what kind of corn it is, "GETS-IT" will stop the pain in 3 seconds. All pain goes at a touch. Then the corn shrinks up and goes away all together. You walk, dance, wear tight shoes all you want. For your own sake try "Gels-It." At drug stores. Costs only a few cents.

## "My wife was suffering from NEURITIS"

"cannot say too much in praise of Mountain Valley Water"

A Southern California Minister, in grateful appreciation of the benefits received from the use of Mountain Valley Water, writes:

"Last month when in your office my wife was suffering from Neuritis of long standing and her joints were swelling and it seemed as though she was to become a cripple. She is now on her second case of Mountain Valley Water, is free from pain and feels fine. Doubtless you can somehow realize how I feel and how much I am indebted to you for the relief of my wife's suffering. (Original letter on file name and address on request.)"

The stinging, burning, gnawing pains of NEURITIS make a martyr of its victims—it drags them slowly down to a life of hopeless misery. Don't disregard the twinges which are the first danger signals of this agonizing, crippling disability. Don't wait until suffering makes you desperate.

Drink Mountain Valley Water from Hot Springs, Ark. Many cases could be relieved in a few weeks if the patient would simply take the right steps to eliminate the toxins from the blood, soothe and restore the inflamed bladder and stomach so that they could function naturally. Physicians prescribe Mountain Valley Water as an aid in the treatment and prevention of Neuritis and ailments due to Faulty Elimination and Faulty Assimilation.

Many Los Angeles People Have Been Benefited. Come in and see their letters and sample the water FREE. Mountain Valley Water has aided others—give it a chance to help you.

Isn't the prospect of relief worth a trial? Telephone Westmore 4091. Order a case today.

Mountain Valley Water from Hot Springs, Ark. 425 West 18th St. Los Angeles. Order through your Druggist, Grocer, or through our office.

Radio as one of the greatest of the arts and sciences, was never better exemplified than it was last evening when the second of the chamber music series of K-H-J was given in the studio of K-H-J by the Chamber Music Society of the Los Angeles Soap Company. The program, appearing three times a week, is being broadcast through the exceptional courtesy of the Los Angeles Soap Company. The program was a most successful one, and the thousands of the station have realized that the radio is one of the great means of bringing the best of the world's music to the home circle, giving opportunity for parents and children to hear the interpretation of the world's musical masters. The program was a most successful one, and the thousands of the station have realized that the radio is one of the great means of bringing the best of the world's music to the home circle, giving opportunity for parents and children to hear the interpretation of the world's musical masters.

**BIRTH OF CHAMBER MUSIC**  
In the earliest times nearly all music was vocal, consisting of two kinds, the "Musica di Chiesa," or church music, and "Musica di Camera," or secular music. Music consisted at first of singing unaccompanied, and, later, instruments were introduced to amplify and sustain the voices. There was no regard for instrumental balance nor instrumental independence, the instruments being played for the most part in union with the voices. It then became the custom to introduce during the performances small instrumental interludes while the voices rested. This caused the musicians to strive for more proficiency on their instruments, and they soon came to the point where they demanded longer and more intricate interludes for themselves. This was the beginning of chamber music composition. The composers began to write in two forms: pieces to be sung and played and also pieces to be played. These later were at first mostly in the form of courtesans, sarabandes and gigues, and other

of the then prevailing dances of the nobility. As time went on, these developed into the suite form for instruments alone, without voices, and a little later concert pieces were written to be played without regard for vocal music on the program. This gave rise to the sonata form (from the Italian word sonata, to play) and this is the form used by composers for writing chamber music today. It is a

**Countrymen to Honor Seastrom at Loew's State**  
Scandinavian night at Loew's State Theater!  
The spirit of the Vikings, transplanted to Southern California, will be dominant in the unique program to be staged at Loew's State Theater, this evening, when the Swedes, Danes and Norwegians of the Southland will pay tribute to Victor Seastrom, the noted Scandinavian director, in his presentation of "A Tower of Lies," starring Norma Shearer and Lon Chaney. Besides the presidents of the various Scandinavian societies, the consuls of the various "northern light" countries and clergymen of the Scandinavian churches, thousands of Seastrom's fellow-countrymen from the rank and file will attend to pay the director a tribute. Among those who will be present are motion-picture stars and directors of Scandinavian birth, such as Anna Q. Nilsson, Greta Nissen, Sven Gade, Ann Forrest, Mauritz Stiller, Warner Oland, Robert Anderson, James Cruze, Carl Dene, Benjamin Christensen, Otto Mattiessen, Bodil Rosing, Anders Randolph and Greta Garbo (the Norma Shearer of Sweden), who recently arrived from Sweden to play in Metro-Goldwyn-Mayer productions.

**Coal Business Crash Wrecked Her Marriage**  
An echo of the postwar rise and fall of the coal industry was heard in Judge Gates's court yesterday when Mrs. Ardella Mae McCarty obtained a divorce from George F. McCarty, former well-known Pittsburgh coal man. "Mr. McCarty was seemingly very prosperous," she testified. "He left one day for a business trip to Cleveland, and wrote me a farewell letter from there, saying that his business had crashed and that he would not be back home. I had detectives look for him but they could not find him. She was granted a decree."

**SEEKS AIRPLANE JOB**  
Application Made as Inspector of City Regulations  
As the City Council is contemplating making regulations for airplanes used in Los Angeles, which, if adopted, would require an inspector of aircraft to enforce the rules, the City Council yesterday received from Homer Roy Weber of Weber's Airport an application for the job.

**TRUCKING BAN WANTED**  
That heavy trucking be prohibited on Wilshire Boulevard and on Rossmore avenue was requested of the City Council yesterday in a petition filed by S. H. Woodruff, representing property owners on these streets.

**Ship Disabled in Gale Due at Harbor in Tow**  
The Garland Line freighter George Allen, which narrowly escaped going on the rocks off Lower California after her engines were disabled in a fierce tropical hurricane last week, was to have arrived at Los Angeles Harbor last night, in tow of the Red Stock tug Sea Lion. The gigantic steamer, despite the fact that she drifted helplessly for several days, was slowly making her way northward when the tug arrived at her aid, repairs having been made to her engines. The George Allen carries a general cargo valued at \$1,000,000 from Baltimore to Los Angeles Harbor. She has a crew of forty.

## SOCIETY

**BY JUANA NEAL LEVY**

Of much interest to local society is the announcement made this morning by Dr. and Mrs. Edwin Grant Howard of 670 South Ardmore avenue, of the engagement of their charming young daughter, Miss Katherine Taylor Howard, to Hamill Davis Martyn, the news being told to a coterie of intimate friends of Miss Howard's at a charmingly informal luncheon Saturday afternoon at the Mary Louise. The decorations were effectively carried out with autumn flowers and ferns and covers arranged for thirty-six guests. The centerpiece of the table was a fountain banked with ferns and autumn blossoms and the secret was told at the dessert course when the gold-edged envelopes with the names of the betrothed inclosed were hidden beneath the daisies with pom-pom dahlias just showing at the corner. The wedding will be one of the events of November.

**Here Visiting**

Stanley J. Peele, retired chief justice United States Court of Claims, with his wife and the latter's daughter, Rachel, daughter of Washington, D. C., are touring the Pacific Coast and while in Los Angeles are domiciled at the Hotel Clark.

**Visiting Aunt**

Miss Bertha Wilbur of 229 South Alvarado street, and her niece, Miss Louise Shedd of San Jose, arrived in Los Angeles Wednesday afternoon on an extended trip to the Grand Canyon with Vice-President Daves and his party. Miss Shedd will visit with her aunt and uncle at the Hotel Clark, and later visit with relatives in Chicago. The Shedd family are planning to move to Beverly Hills in the near future.

**From Trip**

Miss Betty Brintnall, daughter of Mr. and Mrs. T. Clark Brintnall of Norton avenue, has just returned from an extended trip to the East. She passed two months at the summer home of her uncle, Kenneth E. Galt, at Crystal Beach, Lake Minnetonka, Minn., and later visited with relatives in Chicago. The Brintnalls are planning to move to Beverly Hills in the near future.

**Invitations Issued**

Mrs. R. B. Williamson and Mrs. H. K. Williamson have issued invitations for a bridge luncheon at the Mary Louise, Friday afternoon, October 18 at half-past twelve o'clock.

**Farwell Supper Dance**

One of the delightful affairs of recent date was the supper dance with which the Sorority Alumnae entertained Saturday evening at the Biltmore in honor of the One Hundred and Sixtieth Infantry. Assisting the hostess were Col. and Mrs. Harcourt Harvey and Maj. and Mrs. David Cowley, as well as the officers of the staff and their wives. The decorations were carried out with a profusion of chrysanthemums, dahlias, sinulas and ferns, also adding an artistic touch to the effect, it being a strictly military affair. Col. and Mrs. Harvey are planning to leave the last of the month for the East, on a six weeks' or two months' sojourn, and the affair was also in the nature of a farewell to the regiment. Music for the dancing was given by the One Hundred and Sixtieth Infantry's crack orchestra.

**Wedding Announcement**

Announcement is made of the marriage Saturday of Miss Violet Virginia Rennie, daughter of Mr. and Mrs. William Edward Rennie of South Pasadena, and James Albert Baker of Redding. The ceremony was performed by Rev. S. C. Livingston at Calvary Presbyterian Church, South Pasadena, and a reception at the home of the bride's parents, 1055 Wayne avenue, followed the ceremony for the bride and groom. The bride, wearing a costume of white satin trimmed in lace, her bouquet being bride's roses and lilies of the valley, while the bridesmaid, Miss Edith Rowley, was attired in orchid georgette with bouquet of lavender dahlias. The matron of honor, Mrs. Theodore Campbell of Oakland, wore a gown of blue chiffon and carried a bouquet of Little Dorothy Louise Ayling, daughter of Mr. and Mrs. Thomas A. Ayling, a niece of the bride. The bridesmaid was Miss Edith Rowley, a niece of the bride. The bride's groom, was a flower girl in pink crepe de chine frock with ruffles of lace. Theodore Campbell of Oakland was best man, and the ushers were Thomas A. Ayling, Calvin Maxwell and Henry St. Pierre. Mrs. Baker is the daughter of Mrs. Cora Lee Baker of Porterville. After their return from their honeymoon, Mr. and Mrs. Baker will make their home in Redding.

**Engagement Announced**

Formal announcement is made this morning by Mr. and Mrs. Clyde Percy Harrell of 806 Laurel avenue, Hollywood, of the engagement of their daughter, Miss Frances Harrell, to Edward Egan, son of Mr. and Mrs. Edward Egan of Wilcox avenue, Hollywood. The news was told last evening at a shower with which Miss Harrell entertained in honor of Miss Ann Moore, who is leaving Sunday for New York, where she will become the bride of William Robb, Jr., October 2. The affair was in the nature of a bridge supper and as the guests were leaving a small protection camera flashed on the screen the names of the betrothed, with the wedding date in January.

Miss Harrell was assisted by Miss Lloyd Lewington, and the decorations were carried out in orange-hued dahlias and chrysanthemums. Both Miss Harrell and the matron of honor, Mrs. Egan, are sorority sisters of Alpha Tau Zeta. Miss Harrell was graduated in June from University of California, Southern Branch, while Mr. Egan is an alumnus of University of Washington. Those included were Miss Anne Moore, Mrs. Henry Otto Bollman, Mrs. Holmes Bowers, Mrs. Arthur Ferguson,

## CHARMING FALL BRIDE-ELECT

### Her Wedding Will be November Event

Miss Katherine Taylor Howard

Formal announcement is made this morning by Dr. and Mrs. Edwin Grant Howard of 670 South Ardmore avenue of the engagement of their daughter, Miss Katherine Taylor Howard, to Hamill Davis Martyn. The wedding will be one of the brilliant events of November.

Mrs. Geoffrey Collins, Mrs. German Bellnap, Mrs. William Aux Somers, Mrs. Harry Lewis Wyatt, Mrs. John Griffith, Mrs. Donald Gray, Mrs. Chester Taft, Mrs. Payton A. Moore, Mrs. Donald Egan, Mrs. Gertrude Dahl West, Miss Eunice Dull, Miss Frances Dull, Miss Rose Moorhead, Miss Laura Payne, Miss Eleanor Aronson, Miss Dorothy Standing, Miss Corinne Smith, Miss Ruth Skully, Miss Janette Thoburn, Miss Muriel Swenson, Miss Miriam Hansen, Miss Helen Shine, Miss Gertrude Ross, Miss Helen Sullivan, Miss Martha Summell, Miss Grace Louise Whiteford, Miss Alice Early and Mrs. Clyde Percy Harrell.

**Around the World**

Mrs. Jefferson Davis Riddell of 2147 West Seventh street, accompanied by Mrs. Frank Harbeson of West Adams street, is leaving today aboard the President Garfield for a trip around the world. The travelers plan to be in Japan a month and will go into the interior of China as far as safety will permit. A most interesting sojourn during their month in India is anticipated, whence they will go to Egypt and expect to be on the Nile a month more. They will then go on to Sicily and old Seville in time for the celebrated Easter festivities, after which Mrs. Harbeson will return to Los Angeles, while Mrs. Riddell will visit other friends in Europe and will retrace much of the continent and haunts she visited a year and a half ago. Many delightful functions have been given for these popular voyagers, among them being the charmingly arranged affair with which Mrs. Roy Ridge of Santa Monica and Mrs. Lucille Janeway recently entertained at the Mary Louise.

**Sorority Alumnae Entertains**

Los Angeles chapter of Alpha Omicron Pi sorority will entertain with its regular meeting Saturday afternoon at the home of Mrs. Varne Willson McKinnley in Portmosa Boulevard, the members gathering to discuss the social and philanthropic plans for the coming season. A luncheon will be served in the cottage of Mrs. Richard Alter at the Uplifters' Rancho, a picnic serving as an enjoyable diversion. The meeting will precede the meeting and will be held at Mrs. McKinnley's home, when the hostess will be assisted by Miss Lucille Warner and Miss Lora Blythe of Orange, Cal.

**Mrs. Roe to be Buried Today at Inglewood**

Funeral services for Mrs. Maybelle Roe, who died Saturday in San Quentin, will be conducted today at Pierce Brothers undertaking establishment, West Washington street. Burial will be made in Inglewood Cemetery. The services will be private, it was stated.

Mrs. Roe was sentenced to San Quentin after she had been found guilty of the murder of McCullough Graydon in Venice on September 21, 1920. Oscar A. Bowers was also convicted on the same charge and is now in San Quentin.

**The New Home**

If you are superintending the building of your new home, do not forget to look at the height of the sink and see that it is a convenient distance from the stove, so it will not cause backache from constant stooping. The average sink is too low for many women and brides cannot reach how often she will stand at the sink, so just on general principles see that it is a comfortable height.

## SILK AFTERNOON FROCK

The caress of soft oriental silk and the satisfaction of sponsorship make this model a delight to wear. It is cut on straight lines, the sleeves being of the kimono type. The strings of crepe Georgette finished with tassels are sewed in with the shoulder seams. If preferred, the dress may be made of plain silk and trimmed with a border of deep lace. Paris is using hand-crochet lace to trim many smart frocks. Medium size requires 1 1/2 yard 54-inch bordered silk or 2 1/4 yards 36-inch plain silk, with 1 1/4 yard of lace 12 or more inches wide.

Pictorial Review Printed Pattern No. 2734. Sizes, 14 to 18 years and 34 to 44 inches bust. Price, 45 cents.

## CROSS CONTINENT ON WALKING TOUR

Two members of the New York Graphic Walking Club, Jack Schlesinger, 21 years of age, and Ben Sachs, 20, are here, having covered 5600 miles since their departure from New York June 12. They hiked and rode through fifteen States, Philadelphia, Chicago, Denver and Seattle were some of the cities they visited. Their hike, they said, is to prove the value of walking and open-air living as a health-giving program. They will return by way of San Diego, following the southern route to Florida, thence up the Atlantic seaboard.

Joe Santanelli, proprietor of the club, will appear next week to enter a plea to the same charges.

## CHEF WYMAN'S Suggestions for TOMORROW'S MENU

Breakfast: Baked Apple, Eggs, Bonne Femme, Jelly, Milk, Coffee.

Luncheon: Veal Chilli Con Carne, Hot Corn Bread, Sliced Oranges with Coconut, Nougat Cake, Tea.

Dinner: Consomme with Tomatoes, Roast Pork Chops, Baked Sweet Potatoes, Celery and Nut Salad, Mock Mince Pie, Cheese, Coffee.

**VEAL CHILI**

Cut one pound of cooked veal into half-inch dice and remove all skin, fat and gristle. Melt over a slow fire three tablespoonfuls of butter, add one thinly chopped onion and cook until the onion is clear; stir in three tablespoonfuls of flour, work smooth and add slowly one and a half cups of meat stock, one cupful of tomato puree, one tablespoonful of chili powder and half a teaspoonful of salt; stir and cook until the mixture boils and the onion is tender, add the veal, skin off the fat and serve in a hot sauce or over beans or steamed rice.

**NOUGAT CAKE**

Bake two layers of sponge cake, cook and spread between the layers and over the top and sides a nougat filling made by boiling without stirring, one cupful of sugar, four tablespoonfuls of white corn syrup, and half a cupful of water; boil until a little will form a hard ball when dropped in cold water. Pour slowly into the stiffly beaten white of one egg and beat until it starts to stiffen; add one-third of a cupful of chopped

nut meats, beat until cold and thick, add one teaspoonful of vanilla extract and spread on the cake.

**FORK CHOPS**

Have a butcher cut the required number of rib pork chops about half an inch thick, remove the extra fat, season with salt and pepper, dip in flour and place in a hot frying pan. Cook, turning often, until a nice golden brown; reduce the heat and cook until the centers are done. Cover the bottom of a hot platter with thickened tomato sauce, lay on the cooked pork chops and garnish the dish with browned sweet potatoes.

**CELERY AND NUT SALAD**

Mix in a cold bowl one and a half cups of peeled, cored and sliced pineapple with one cupful of nut meats broken in coarse pieces, one chopped green pepper, one chopped pimiento and one cupful of cooked salad dressing. Serve on lettuce-covered plates.

**MOCK MINCE PIE**

Peel, core and chop fine about eight tart apples and mix them with one cupful of seedless raisins, half a cupful of chopped seeded raisins, half a cupful of currants, four tablespoonfuls of chopped candied orange peel, half a teaspoonful each of cinnamon, cloves, mace and allspice, one-quarter of a teaspoonful of salt, one-quarter of a teaspoonful of nutmeg, three tablespoonfuls of oil and the grated rind and juice of one lemon. Pour the mixture into a pastry-lined pie tin, cover with strips of pastry and bake in a moderate oven.

**Keep Them Clean**

Mice will avoid traps that smell of former visitors. The trap should be scalded and aired before reducing if you hope for success.

## WEST TOUR PROSPECTS ARE BRIGHT

Railway Passenger Agent Says East Interested by Coast Advertising

Returning yesterday from the East, where he visited the largest cities and travel centers, James B. Duffy, general passenger agent of the Santa Fe, announced that the outlook for a heavy tourist business to California this winter was never brighter.

"We already are lining up equipment and otherwise preparing for a tremendous travel to Southern California," which soon will be under way," said Mr. Duffy. "While travel to Europe has been heavy, I found there has been a very satisfactory response to the campaign of advertising we have been carrying on in favor of California, and people everywhere in such big centers as Chicago, Pittsburgh, Philadelphia, Buffalo, Cleveland, Detroit, Washington, Boston and New York show renewed interest in California."

The passenger official stated that the records show a better business enjoyed by the Santa Fe the past summer than for any similar season on record.

## AWARD CONTRACT FOR PAVING ON ALAMEDA

The paving of Alameda street from Twentieth street to Forty-eighth street with eight-inch concrete pavement was awarded yesterday when the Board of Public Works opened bids for the work. The low bidder was the Griffith Company, which offered to do the work for \$141,519. Bids also were opened by the board for the paving of streets in the Parthenia and Eddy streets improvements district in the San Fernando Valley. The low bidder was George R. Curtis, whose bid was \$61,666. The streets will be paved with five-inch concrete.

## FIRST AID DISCUSSED IN COUNCIL

Private Hospitals May be Required to Act in Emergency Cases

That private hospitals of the city may be required to give first aid and emergency treatment to injured persons may be the outcome of a resolution offered at yesterday's session of the City Council by Councilman Sparks and adopted. The Councilman called attention to the long delays in transporting injured persons to the Receiving Hospital at First and Hill streets, and said that in some cases these delays had proved fatal to the injured persons. Under the text of the resolution, the Council declared that injured persons should be taken to the hospital located nearest of the scene of the accident for the required emergency treatment and thereafter taken to the Receiving Hospital. Police Surgeon Goodrich was requested to furnish the Council with a report on the cost of giving this emergency service and the steps to be taken to require the private hospitals to give this service.

## Can Clean More Than 18 Necessities

Pittsburg, Pa., Sept. 22.—According to an article by Lloyd E. Jackson in a December issue of the Scientific American, the skillful plant owner can clean eighteen household necessities. The list includes: Upholstered furniture, lamp shades, lace curtains, blankets, comforters, shoes, plumes, gloves, women's hats, feathers, furs, women's fancy dresses of the most delicate materials, neckties, leather coats, raincoats, overcoats; in many cases they successfully shampoo rugs.

### CLUB OBSERVER GRILLS COUNCIL

Women Chairman in Caustic Comment on Methods

New Charter Comes in for Sharp Criticism

Legislative Class to Study Proposed Laws

BY MYRA NYE

If the old city charter was patchwork, the new one is a crazy quilt. The prevention of this psychopathic condition depends not entirely on the fifteen members of the City Council, but in large measure upon the club women of the city.

This ultimate opinion of Mrs. Cora Deal Lewis, chairman of City Council work for the Women's Club, was given in a vivacious little speech at the formal session of the club yesterday. Mrs. J. T. Anderson presided.

"I don't go to the City Council meetings because I like to live," said Mrs. Lewis, who added that the sight of the Council in action was aggravating and not entertaining.

"But we women can't discharge our club obligations and go to club meetings just to be entertained. We've got to do something for the community in which we live." One of the things to be done, she said, was to watch the City Council.

WINS RIGHT TO TALK "I'd be ashamed to be one of the fifty-eight out of a hundred who failed to vote on the city charter and members of the Council. If you voted you have some

right to berate them." If Mrs. Lewis is to berate she wants to do it intelligently, but she was mild yesterday and let most of them off.

"I asked eleven candidates assembled at the City Hall just before election what they would do for the good of the whole city. One of them told me that he was going to see to it that good streets, curbs, electricity and water were put in in a certain section of the city. When I found out it was a section where he, with others in a company, was laying out a tract for subdivision, I understood what kind of a Councilman he would make. I didn't vote for him. It isn't only at election time we must be active. It is now," she said.

Mrs. Lewis gave a digest of the activities of the City Council which was off the press at 4 o'clock yesterday afternoon. She also reviewed briefly the work of the different city departments over which the Council has control.

BILLS UNDER SCRUTINY Mrs. A. J. Lawton, chairman of legislation, announced that she had introduced a bill to be presented at the next Legislature will be organized, to meet each month. She will conduct these classes and will call upon experts along the lines under discussion to speak before the members.

We hope to prevent in some measure the lamentable condition that every time a man opens his mouth a new law is formed," she said. "There were near 2500 bills introduced last year. Problem of elimination is tremendous. The club can help solve the problem," she said.

L. E. Behrmer received a warm ovation, both at the beginning and the close of his talk on the California Grand Opera Association, which opens October 6. He said that the association appeared to be better advantage than in this place for opera as a civic pride, not only for Los Angeles but the entire Pacific Coast.

The distinguished speaker at the breakfast at 11:30 was Dr. Julius Arnold, government attaché of the United States Legation at Peking. His subject was "China Today."

Daughters of the Confederacy Mary Curtis Lee Chapter of the Daughters of the Confederacy will meet tomorrow at 2 o'clock. Mrs. Bettie Smith Hughes will be hostess, with Meses Biggs, Buckner, Carman, Colwell and Robbins assisting. Mrs. Hughes' group has arranged an interesting program with Miss Lola Perdue in a group of songs and Miss Cobilla Rye in a group of dances.

Republican Study Club The 25th inst. has been set as the date for the first fall meeting of the Republican Study Club. An address by the president, Mrs. Edward T. Wins, "Current Politics," by Laura Taylor Kelly, "Plans for the Federation," Florence Collins Porter, five-minute talks by chairmen of committees on plans for the coming year, comprise the program, which will be followed by an informal reception and tea. The meeting will be held at 2 p.m. in the Los Angeles Nurses' Home, 211 South Lucas avenue.

Drama League An informal afternoon tea will be given by Los Angeles Center, Drama League of America, on Saturday, the 26th inst., from 3 to 5 o'clock. The affair will be at the home of the president, Mrs. W. E. Silverwood, and will serve to introduce the new board of directors.

Special Events Three important events are in order for members of the Los Angeles Opera and Fine Arts Club. The first, Saturday, the 26th inst., dinner at 6:30 o'clock and a program at 8:15, when the club will have a special performance by the club. The second, October 10, dinner at 6:30 o'clock and a program at 8:15, when the club will have a special performance by the club. The third, October 17, dinner at 6:30 o'clock and a program at 8:15, when the club will have a special performance by the club.

## THE LAST WORD.

BY ALMA WHITAKER

Little Surprises

"Well, who would have thought it? Goodness, one never really knows a person, just meeting them under the same conditions. Would you have supposed that Beth was athletic and playful?"

Ruth and I were basking on the warm sands at the beach in our bathing costumes. And this was the first time we had seen Beth, our serious, dignified, slightly pompous Beth anywhere except at the club or at formal functions.

Beth, who could make such impressive talks from a club platform, Beth, who seemed to us a little hard, a bit of a politician, inordinately ambitious, Beth, who always dressed so severely and was always so immaculately married.

Yet here was Beth in a bright orange and highly becoming bathing suit and cap, proving herself an amazingly good swimmer, competing with the young people in riding the breakers and diving off the diving board on the sands.

And then, in contrast, there was Janette—pretty, fashionable, gay Janette, who shone so radiantly at dances, and whose complexion every woman envied. But here at the beach Janette was a sport.

She wore a thick veil over her face—because that complexion had to be protected from sunburn. She wore a thick veil over her face—because that complexion had to be protected from sunburn. She wore a thick veil over her face—because that complexion had to be protected from sunburn.

No two people should ever meet each other until they have been acquainted for some time. I have known these people for years and never guessed this side of their characters."

Copyright, 1925, McClure Newspaper Syndicate

She complained, too, because her husband had brought the open car when he knew she greatly preferred the closer car.

"Dear, dear, this wasn't there, was it, Janette? We thought we knew, at all."

And who would have supposed that Mr. and Mrs. Wainwright was such a jolly couple? It was Winnie who knew how to manage the old-fashioned cook stove at the beach house. Winnie who made light of the inconvenience, Winnie who stood in her wet bathing suit on the beach, laughing gaily the while.

And it was Winnie who knew how to concoct a wonderful syrup for the pancakes out of the last of the limited supplies when we found the regular kind had been left behind.

And we learned a great deal more about our men on this occasion. That dashing debonaire fellow, who the breezy manner and the compelling smile—what a grouch he could be when things didn't go quite right. His wife had to keep on apologizing to him, explaining that the dear fellow never did feel right when he slept in a strange bed and ate his meals other than at a well-ordered table.

And how the party brought out that quiet fellow who didn't shine so well at a city party. Down here he was the arch admiral. Crispin. He it was who knew how to fish and really catch things that we could cook. He it was who knew all about managing a boat, fitting up a raft to dive from, building the bonfire on the sands and making things comfy for everybody. This was where he belonged, this was his domain.

"No two people should ever meet each other until they have been acquainted for some time. I have known these people for years and never guessed this side of their characters."

### AUTO THEFT GANG "QUEEN" ARRESTED

Mrs. Velma Tippitt

She was taken prisoner at 3012 South Halldale avenue. A telegram from Dodge City, Kan., Mrs. Tippitt's husband, according to the police, already is in the Federal penitentiary at Leavenworth for taking stolen automobiles across State lines.

The officers say she admitted that she has been working with his associates since his imprisonment and that the gang has stolen about 250 cars.

### SOUTHLAND FAIR TO OPEN TODAY

Horse Show Will Feature Pomona Exhibit

Half-Mile Races Start This Afternoon

Varied Entertainments Are on Daily Programs

Featured by more and better exhibits of the Southland's fertile and versatile soil, and by a program of entertainment of exceptional attraction, the fourth annual Los Angeles County Fair opens its five-day run today at Pomona.

The gates open at 10 o'clock. The morning program will consist of various features planned in the different exhibit tent—industrial, poultry, machinery, junior fair and pigeon sections. This afternoon's program will consist of races on the half-mile track preceded by a pageant and Wild West entertainment, while tonight will be staged the opening horse show.

Two swift harness races—a pace and a trot—and two running races will form the speed program for this afternoon. The prize program will consist of a special illustrative of California's Diamond Jubilee and Pomona's centennial anniversary. In this will appear members of old Spanish pioneer families of Los Angeles county, garbed as they were in the golden days of fifty or seventy-five years ago. Cowpunchers from California ranches as well as famous near-by vaqueros of the studies near Los Angeles are expected to participate in the rodeo number.

The horse show tonight is expected by the management to attract special attention and to draw a large attendance. The prize program call for demonstration of equine excellence by some of the most famous thoroughbreds of the West. This will be a slightly feature throughout the fair.

The fair runs five days, including Saturday, and is expected to draw an attendance of more than 100,000.

VOTES FUND FOR MOVING CITY STAFF

Council Committee Acts to Prepare for Razing of Bullard Building

Preparatory to razing the Bullard Building at 154 North Spring street, which is located on the site of the new \$5,000,000 City Hall, the City Council's Finance Committee yesterday approved of an appropriation of \$1000 to prepare offices in the International Bank Building at Temple and Spring streets, and the Equitable Building at Temple and Spring streets, for the use of the city departments now in the Bullard Building and its adjacent City Hall.

The city acquired by condemnation the International and Equitable buildings for the new City Hall and the new straightened Spring street, but both buildings can remain until the two improvements are completed. The rearrangement of city offices in the two buildings will be as follows: Equitable Building: City clerk, city planning, examiners of plumbers, construction, Police Commission, pensions, employees' mortuary fund, board of mechanical engineers, park, humane treatment of animals, playground and building departments.

International Bank Building: Police juvenile bureau, city mother, public utilities, health, City Prosecutor, Police Court Public Defender and social service departments.

Girl Confesses Purse Theft on Pickfair Lawn

Helen Marie Miller, 22-year-old Chicago girl, pleaded guilty before Justice Cavanaugh in Beverly Hills yesterday to stealing \$50 from a coat belonging to Victor Barbera, a gardener at Pickfair, Beverly Hills estate of Douglas Fairbanks and Mary Pickford. She admitted picking the pocket of the coat, which she said she found lying on the grass while visiting Pickfair as a tourist.

Miss Miller is being held in the Beverly Hills Jail pending word from her parents in Chicago. She told police she came to California to obtain material for stories about film stars.

Orders Return of Funds for Tunnel Stock

State Corporation Commissioner Daugherty yesterday ordered the Tunnels Transportation Company, which was thrown into the lime-light recently by the Downs-Fitzpatrick bribe case, to repay approximately \$1500 received from stock sales to the seven original subscribers.

The order was made at a public hearing on the application of William R. Hodges, Jr., vice-president and general manager, for permission to return the funds. The company was given until Monday at 2 p.m. to file a certified statement that the money had been returned.

A total of \$1250 was subscribed for stock by seven individuals but only \$1800 was collected, the Corporation Department records show. The money was repaid and the subscriptions will be repaid 100 per cent without the reduction of the 20 per cent which might have been allowed for promotion.

## Women Lose

less time, keep charm under trying hygienic conditions this new way

OLD-TIME sanitary methods bring unhappy, fretful days. Now the insecurity of the hazardous "sanitary pad" has been ended.

You wear sheerest gowns, meet every and all social or business engagements in peace of mind... any time, any day.

It is called "KOTEX":... five times as absorbent as the ordinary cotton pad!

Thoroughly deodorizes... thus ending ALL fear of offending. Discards as easily as a piece of tissue. No laundry. No embarrassment.

You ask for it without hesitancy simply by saying "KOTEX" at any drug or department store. Costs only a few cents. Proves risky old ways a folly.

KOTEX No laundry—discard like tissue

## INDIAN ACTOR CHARGES PLOT

Oklahoma Brave Captured When Party Raided

Lunacy Complaint Against Redwing Dismissed

But Plenty Firewater May Yet Prove Undoing

Utterly disgusted with the ways of the white brother, Redwing yesterday, when he stepped out of the frying pan of the Lunacy Commission directly into the fire of police court.

Redwing was born on the plains of Oklahoma, but of late he has been hitting the dust and doing other redskin stunts on the film lots of Hollywood. His appearance before the Lunacy Commission yesterday and his scheduled engagement with the police court he attributes to a dastardly plot on the part of someone.

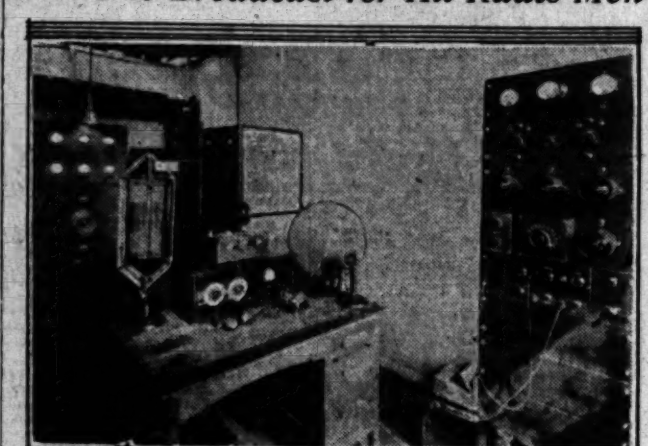

**TITLE OF PARTY**  
It all started, according to the tale Redwing told Judge Gates yesterday, when a palerface doctor, whom he had always regarded as a friend and brother, brought in a little sack of gin, just a couple of quarts or so, one evening recently. He and the doctor and another friend or so were sampling the firewater, when of a sudden a great clamor arose, and the first thing the party knew, the room was full of rough policemen.

Redwing was seized as a captive, and what was left of the firewater was impounded as evidence. Shortly thereafter, Redwing was in a jail cell.

About that time the firewater commenced to show its stuff. Physicians were called. Mrs. Mary Lawrence Redwing, wife of Redwing, was summoned. The doctor, after observing how Redwing carried his gin, recommended to Mrs. Redwing that she swear to a lunacy complaint, which she did. So the brilliant Redwing was transferred to the psychopathic ward of the General Hospital, pending a hearing on his sanity.

**SCOTCH AT LUNACY**  
By the time Redwing went before Judge Gates yesterday, he was thoroughly recovered, and when the judge heard about the gin, he scoffed at the insanity theory.

## NEW STATION OPERATING ROOM KNRC to Broadcast for All Radio Men

Built by Kierulff and Ravenscroft

**KIERULFF & RAVENSCROFT COMPANY**, Southern California pioneers in radio, have constructed in their building at 1430 South Los Angeles, an up-to-date 500-watt broadcasting station at present operating on 250 watts, 208 meters, 1440 kilocycles, using storage battery equipment throughout, and is the only one of its power so equipped on the Pacific Coast. The call letters of this station are KNRC.

KNRC has been primarily constructed by radio men for radio men and it is the intention to assist by broadcasting for any and all radio manufacturers, jobbers or dealers throughout the State of California.

**Kierulff & Ravenscroft Company** has expended considerable care and thought in this very latest designed broadcasting station, and due to the fact that only storage batteries are used, local and distant listeners-in have reported by phone and mail the excellence of the station's tone quality.

The studio has been constructed by acoustic experts. The draperies and color scheme are of a light tan and orange. The lighting is so arranged that it may be subdued for the soloists and singers and flooded when large or small orchestras are on the air. Through six windows, visitors in the reception room can view the artists and from a loud speaker enjoy their broadcasting.

The staff of KNRC consists of Clarence Juneau, technician; Franklin Richardson, program advertising salesman; Linnie Lee Gues, hostess and accompanist; and Hastings, manager and program director. Tunes in on Tuesday, the 22nd inst., at 7 a.m.

## OFFICERS HUNT MISSING BRIDE

Husband Fears Foul Play in Disappearance

All Efforts Made to Trace Girl-Wife Fruitless

Carried \$300 to \$400 on Visit to Physician

A search extending to every corner of the Southland was set under way by local police and deputy sheriffs yesterday shortly after they had been informed of the disappearance of attractive Mrs. Ruby Means, 19-year-old bride, who dropped from sight Saturday.

The disappearance of the girl-bride was reported by her husband, Raymond Means. He informed the Sheriff's office that his wife left their home, 1930 1-2 South Burlington avenue, at about 2 p.m. yesterday.

She was on her way to a physician, he said, and carried between \$300 and \$400 with her. She was supposed to meet him with the money later, he said, but failed to keep the appointment. Together with friends and relatives, he said, he began a search for his wife, but without success.

They made a thorough search for the neighborhood about the home and friends and acquaintances of the young woman were interviewed but all to no avail.

Unable to find trace of his wife, Means finally appealed to the authorities for aid. He expressed the belief that his wife may have been carried off much money with her, he believes, may have something to do with her mysterious disappearance.

The missing bride was described as extremely attractive in appearance, with blond bobbed hair. She wore only a house dress and a black hat when seen and this fact served further to convince the anxious husband that his wife may have become the victim of others as otherwise she could not have gone far in the attire which she wore.

## DR. WARREN LOSES WIFE BY DIVORCE

Correspondent Named in Suit Exonerated as Case Goes on for Settlement

Dr. Frank Leon Warren, retired dental surgeon, yesterday lost his wife when Judge Burnell granted Mrs. Virgie F. Warren a divorce on grounds of cruelty. The court made an order exonerating Mrs. Vivian Rice Greene of charges made against her in Mrs. Warren's complaint, which named Mrs. Greene as correspondent.

Mrs. Warren accused her husband of associating with other women, especially Mrs. Greene, but the latter, who formerly was office assistant to the surgeon, took the stand and denied she had ever had any improper relations of any kind with Dr. Warren.

Dr. Warren filed a cross-complaint to his wife's suit, in which he accused her of being unreasonably jealous. He stated that from the inception of their married life his wife had always suspected his office girls in their associations with him.

Judge Burnell, after granting a decree, ordered the case continued to October 19 to permit attorneys in the action to draw up a property settlement between Mrs. Warren and Dr. Warren.

## I See by Today's 'Times' Want Ads—

That a general dry goods and men's furnishings store is offered at big sacrifice. Clean up-to-date stock—\$5000 will handle.

That advertiser wants to lease—with option to buy—thirty-acre improved ranch in citrus or walnut district.

That two waitresses are wanted for out-of-town hotel.

That boy's bicycle is offered for sale for \$18.

## CORRUPTING MINORS CHARGED TO COUPLE

Charged with conducting themselves in an obscene manner in the presence of two minor children, Mrs. Esther A. Nelson and John Stoerkel were accused of contributing to the delinquency of minors in a complaint filed yesterday in Judge Archibald's Juvenile Court.

The pair are asserted to have lived together in an apartment with the children, who were in the custody of Mrs. Nelson, and, according to the complaint, Mrs. Nelson exhibited herself in scanty attire to the gaze of Stoerkel before the children. The complaint was prepared by Dep. Dist. Atty. Joon.

## ATTORNEY ROCKWELL SENTENCED

Probation Denied Man in Narcotic Case, Goes to Prison for Two Years

Despite a plea for probation, Guy Rockwell, attorney, yesterday was sentenced to two years in Leavenworth on charges of conspiracy to violate the Harrison Narcotic Act, on which Rockwell and Ernest Maglione were found guilty before former Judge Bledsoe. United States District Judge Henning, after reviewing the evidence against Rockwell, denied his plea and ordered him to Leavenworth after a short stay of execution.

Rockwell and Maglione were arrested in connection with a visit to the Wallace Reid studios. The two men were said to have had sixty grains of cocaine which they were offering as samples of a quality that they claimed to be productive later. They were arrested before any deal was consummated.

The two men were prosecuted and convicted before Judge Bledsoe by Dep. U. S. Atty. Simpson. They appealed the case, but recently announced that they would drop the appeal and apply for probation under the new law allowing them to do so in Federal Court.

Simpson was called by Judge Henning yesterday and reviewed the testimony and the facts brought out at the trial. At the conclusion Attorney Stanley Visel made a plea for his client, but the court ruled against him.

Maglione will appear for hearing next Monday.

## CHAMBER'S EXHIBITION

Displays at Four Fairs in East Called Credit to State by Santa Fe Man

Emphasizing a California message to more than 1,600,000 persons, a majority of whom were of the agricultural class, accomplished by the Los Angeles Chamber of Commerce at the State fairs of Des Moines, Iowa, Sedalia, Mo., Indianapolis, and Springfield, Ill., the last few months was one of the outstanding constructive exploits of the year, according to C. L. Seagraves, general colonization agent of the Santa Fe, who arrived this week from his Chicago offices for a tour of the State.

"This boost not only was for Los Angeles, but all of California," said Mr. Seagraves, "and the Los Angeles Chamber of Commerce deserves a great deal of credit for having taken the initiative and reached so many substantial people to whom literature and other advertising matter was given and which was not thrown away."

He said the displays of the Los Angeles chamber at the several State fairs had been convincing and that there was a personal contact in such exhibits that can not be overestimated.

"The Los Angeles Chamber of Commerce has gone a step further and has established headquarters for displays and the disseminating of a true perspective of California," said the colonization official. "The site for carrying on this work in Chicago is in the heart of the Loop district where those in charge of the chamber headquarters will have opportunity to talk with many visitors every day through such a medium they will learn first-hand about the resources and possibilities of this State."

Mr. Seagraves will spend several weeks on the Pacific Coast, will address the California real estate convention at Fresno early next month.

## Council Votes to Reconsider Set-Back Edict

On motion of Councilman Zahn, the City Council yesterday voted to reconsider its action of last week in refusing to change the set-back law so as to permit the new \$200,000 building of St. James Episcopal Church on Andrews Place near Wilshire Boulevard to project nearer the property line than the set-back foot.

The City Planning Committee had reported in favor of the permission being given to the church, but the Council declined to accept the committee's recommendation. The application for the repeal of the set-back law on the west side of St. Andrews Place was again referred to the City Planning Committee for a report. Chairman Hall of the committee said that it would re-submit its previous report, and there was a possibility that several Councilmen would change their votes and that the application of the church would be granted.

**BANK HOLD-UP SLAYING SUSPECT DENIES GUILT**  
Anthony Kaspar, charged with the shooting of Police Officer Wylie E. Smith at the hold-up of the Herman Commercial Trust and Savings Bank branch at Ninth street and Santa Fe avenue, August 2, pleaded not guilty when arraigned before Judge Crail yesterday. Trial was set for October 18. One of the bandits was killed in the hold-up and two escaped.

**CONCRETE PAVING ASKED**  
The paving with concrete of Laurel Canyon Road from Pacoima avenue to Lookout Mountain Road has been requested of the City Council in a petition filed by Alvaro Prait and other property owners.

**FLAMES DESTROY GARAGE**  
Fire of undetermined origin destroyed the garage of Edgar D. Stoot, 2706 Wilshire Boulevard. Police estimated the loss at \$1000.

## No New Cases of Paralysis in Two Days

No new cases of infantile paralysis were reported in Los Angeles Sunday or yesterday, according to an official statement by City Health Officer Parrish.

The records at the city health office show that the total number of cases this month to date is fourteen, and the total since January 1, last, is 181. The total for last week was four cases, and the total for last month was fifty-one cases, the records also show.

## RIMPAU BOULEVARD PAVING APPROVED

The City Council yesterday denied protests against the assessments for the paving of Rimpau Boulevard from Country Club Drive to Pico street and confirmed the assessments. Property owners complained that the pavement which was concrete with a Warrentite wearing surface, was faulty, but Councilmen who inspected the new pavement last week reported today that the work was satisfactory and met the required city specifications. "It is due to Chief City Inspector Rook," said Councilman Ash, "that we give him a clean bill for his work of supervising this improvement."

## First Photographs of Actual Conflict Between French and Riff

Opening of a French attack on a Rifian position on the Orghe front. In the foreground a French "155," partially obscured by its own smoke, is shown in action. At the extreme left a detachment of infantry is awaiting the order to advance under cover of the barrage. The country is typical of that over which the warfare in Morocco is being waged.

Algerian Tirailleurs halt in their northward advance to repair a road made impassable to motor traffic by the retreating Berbers. A thousand yards beyond this point the advance units of this battalion were engaged in combat with the Riffs at the time this photo was taken. Even while working, the Tirailleur at the front does not lay his rifle down.

Close on the heels of the retreating tribesmen, the mule teams pictured above are pushing north through the mountainous country with supplies for the French infantry and artillery ahead. The hut indicated by the arrow served as headquarters for the Riffian forces a scant twenty-four hours before this photo was taken. The Riffs were given no time to destroy roads.

THE photographs reproduced on this page and depicting actual fighting between the French forces and the rebels were obtained by a cameraman attached to the staff of Pacific & Atlantic Photos, who was permitted, as they give an accurate idea of the nature of the warfare in Morocco, as well as the country over which it is being fought.

[Pacific & Atlantic Photos.]

Dressed in practically the same garb as their forebears wore centuries ago, this detachment of heavy cavalry presented a strange contrast to the armored car, one of the most modern of instruments of war, partially revealed in the lower left-hand corner, when they met in a pass on the battle front.

While the "155's" are searching out enemy positions on opposite hill crests, Gen. Simons, mobile column, interrogates chiefs of tribes who have come in to pay homage or to surrender and the native chiefs are shown in the lower right-hand corner. The battery position is cleaned the near-by crests and paved the way for an infantry advance within a few hours.

French forces arriving at hilltop won from the Riffians in a stubborn battle the day before. The hill, known as Jebel el Khat, was captured by the French, and the village, which was immediately converted into headquarters by the victorious French, had been the headquarters for the Riffian command. It is located north of Taza and affords a commanding view of the surrounding country.

tribesmen under Abd-el-Krim in Morocco are the first of their kind to be received in the weeks of negotiations, to accompany the advance units of the French forces into the stronghold conducted.

FLASHES

**SOPHISTICATED PLAY**

**"PATA MORGANA" PROVES PENETRATING DRAMA**

By Grace Kingsley

The betrayal of masculine youth by experienced, vain and sensual femininity—that is a story common enough in the daily papers. But it is so vividly told in "Pata Morgana," Ernest Vajda's play, which the Potboilers did last night, that you feel you have never heard of the matter before.

George is an adolescent youth, still in school, but "pota"—as they call him Miss Georgie! But he has the restless turmoil of coming manhood in his veins. He cannot sleep, and he runs out to the river, not knowing, really, that it is just life that is the matter with him!

And then comes Mathilde Fay, 30, hating her husband, full of vanity and yearnings for new sensations. And the boy and the woman are left alone in a farmhouse all night. She teaches him life with a vengeance! Then how naively the boy next day challenges the husband to duel—and how cruelly funny it all is. Especially with Mathilde calling her night with the boy all a lie.

Well, that's "Pata Morgana," blistering revealing, crushingly real. Just once or twice, Mathilde is saved from utter reviling by flashes of sincerity and depth. But she must go on being what she is. She wants to be what she is.

Cleverly, even brilliantly, the Potboilers are giving the play. It is admirably cast. Merwin Williams is ideal as the boy untouched by life, until Mathilde comes. Ideal in looks and most skillful in his playing. He never steps out of the part for a second, but even in his still, listening moments, is freely aware of passion, tumultuous, masculine youth, to perfection.

"We have been used to thinking of Stella De Lanti as a handsome and aristocratic lady who designed to honor mob scenes and an occasional bit in a picture with her presence. But here, as Mathilde, we find her an accomplished actress, capable of every emotional grace and shading and subtlety. Her career in pictures should be assured from now on.

Pity that space and time do not permit of extended praise of the remainder of the cast, who are all round boys in round holes. They are Dr. Marian Tracy Whiting, Ross D. Frank, Danney Lewis, Mike Spooner, Jane K. Leontov, George Atkinson, Farrah Blum, Anne Brown, Catherine Marvin, Adrian Weil, Jacob Kahn, Karyl Marker and Michael Dark.

Many picture producers and directors, as well as picture stars, were present, including E. P. Schuler, Sidney Olcott, Alice Calhoun, Helen Eddy and others. No doubt we shall read the names of some of these excellent players in the picture casts ere long.

Disturbing Factor on African Coast

Marcelle Zabala, lone woman in the cast of "White Cargo," now showing at the Orange Grove.

MIRTH REIGNS AT HILL STREET

A high price is set on a sense of humor this week at the Hill Street. The laughs have to the last hand-clap. It is a hilarious bill and the fun seems well distributed. Music runs from the sublime to the ridiculous and the latter is much better received. This really is laugh week at the Hill Street.

Little Joe Rome and Long Lou Gaut in their act "When Extremes Meet," absorb a great deal of the enthusiasm that they cavort about the stage, principally demonstrating the long and the short of it, but also bringing in a clever bit of dancing now and then. They both are good and the latter is the fluter—if they could have played the flute, and this is hilariously received.

In the skit, "Caterpillars," Davis and Darnell succeed in sinking a bit of the moral inside of a huge amount of fun and good nature. For this reason their act is rather out of the ordinary. The lad with the fast line meets the home-town girl he left years ago, and finds out that he would probably have been the president of a bank if he had stayed there. But, instead, he is "peddling beans." The same little philosophy is true enough to bring forth a response anywhere.

tries, Douglas MacLean has more than half a mind to go and see some of these foreign lands. In fact, he doesn't mind admitting that he is shortly to set sail, accompanied by Mrs. MacLean, to the Panama Canal, also points out that he may return to South America where the fans have been clamoring for his appearance. Then, of course, he means to visit Florida and afterward New York. So good-bye only knows when he will come home.

"I have been wanting to take this trip for a long while, and so has Mrs. MacLean," said the comedian last night, "but we haven't so far been able, due to my hard working schedule, to make it. Now we mean to enjoy ourselves for several weeks."

**Charlie Chaplin's Release**

Pathe seems to be cornering all the laugh-getters. Now it is no less famous a comedian than Charlie Chaplin himself who has signed to release his former comedies, heretofore shown by First National, through Pathe Distributors, Inc. The deal having been closed last week, the deal involves \$1,000,000 and, by the terms of the transaction, the negatives of the first four Chaplins made for First National have been shipped from the Chaplin studios, Hollywood, to Pathe Laboratories in New York. These are "A Dog's Life," "Sunshine," "The Tramp" and "A Day's Pleasure."

The arrangements concluded call for an advance payment of \$500,000 on a five-year lease on the above-named four comedies. The second \$500,000 is to be paid on delivery of the remaining four, which are still in possession of First National. These are "The Kid," "The Idle Class," "Pay-Day" and "The Tramp."

Chaplin is still in New York, but is expected to be back in Hollywood by October 1, when he will at once commence work on a new picture, probably "The Suicide Club."

Titles and inserts are being photographed for "We Moderns," the first National photoplay starring Colleen Moore, but recently completed. June Mathis has charge of the editorial work on the production.

Francis Again

**Intrusted With Preacher Role**

Alec B. Francis seems to have a "corner" on parsons and in order to be thoroughly consistent, recently signed with William Fox for another "Mountain" and has begun his work in a production of the latter yet untitled, whose big historical theme and opportunity for vital characterization will make it one of the leading pictures of the year. To Mr. Francis, in the latter, is entrusted a pivotal character in the "Mountain" parson—a character who comes into a lawless community and does things! He will be busy with this role for the next few months, and to all accounts, it will be his greatest contribution to the screen.

Francis has spent the major part of the year on the Fox lot and has played featured roles in "Thank You," "Thunder Mountain," "A Yankee Senator," the last with Tom Mix. In the first two he played a parson, and in the latter a Spanish don, a fine aristocrat.

Roles more roughly hewn, more vital, human, but with the whimsical touches present, have been enacted this year by Francis. In all of these mentioned in tremendous heart appeal. Also has been the polished sophisticate, using his delightful comedy in "The Coast of Poland" for Paramount, the mellow English lord in "The Circle" for Metro-Goldwyn-Mayer. His score includes two other pictures, his contribution being notable in Warner Brothers' "The Road of the World" and "The Man and the Maid" for Metro-Goldwyn-Mayer. Recognized in filmland as actor and type, brilliant, impressive things are all coming his way.

Advance Sale for "Nanette"

**Breaks Record**

The box office men at the Biltmore declare that the advance sale for the return engagement of "No. No. Nanette," which opens next Monday evening, is the heaviest they have handled since the house opened.

Despite the fact that Edward D. Smith's big musical comedy triumph packed the Mason Theater for seventeen weeks last spring, the long lines at the Biltmore box office indicate that "No. No. Nanette" is going to equal if not exceed its previous record.

The demand for the opening performance through the mails was so great that the management had to limit the sale of tickets for that performance to four to an individual. It is very evident that Los Angeles is going to welcome back the famous "happy show" with open arms, and Taylor Holmes, Nancy Welford and the rest of the cast will undoubtedly receive an enthusiastic reception when they walk out on the Biltmore stage next Monday night.

History records that the opening performance of "No. No. Nanette" was a triumph. The demand for the opening performance through the mails was so great that the management had to limit the sale of tickets for that performance to four to an individual. It is very evident that Los Angeles is going to welcome back the famous "happy show" with open arms, and Taylor Holmes, Nancy Welford and the rest of the cast will undoubtedly receive an enthusiastic reception when they walk out on the Biltmore stage next Monday night.

Railroad Epic

**Current Film at Alhambra**

At the foot of Reno Hill in Nevada there is a lonely grave. The simple headstone records that beneath the mound lies all that was mortal of Casey Jones, an engineer on the old Central Railroad in the early seventies.

When the "Iron Horse," at the Alhambra, was being made on the Reno desert by John Ford and his company, they found this grave of old heroes, the traditions which have been handed down about the immortal engineer who frequently announced that he'd run her "till she leaves the rails." History records that he did. And she left the rails.

Since the song by T. Lawrence Selbert first tempted the falsetto tenors of the world there have been hundreds of versions of the Casey Jones story, but the most authentic comes from Reno.

Forum Theater

**Shifts Revivals to Week-Ends**

The Forum Theater on West Pico street has changed the schedule for the presentation of revivals of old masterpieces. Previously these revivals have been run each Thursday afternoon following the regular matinee show. Beginning last Saturday, they will be shown for two days instead of one, and on Saturday and Sunday, immediately after the first matinee show. This will make the time for these special showings at about 4 o'clock Saturday and Sunday afternoons.

Next week there will be a revival of "Macbeth," and the following week Lillian Gish in "The White Sister" is scheduled.

Capitol Opens With

**"RABBIT'S HOMESTEAD"**

The newly renovated Capitol Theater, at 333 South Spring street, opened last Sunday as the first real Yiddish playhouse in Los Angeles. The opening was celebrated with the presentation of "The Rabbit's Homestead," an opera in three acts, to be continued tomorrow evening, Friday evening, Saturday matinee and evening and Monday evening.

The Capitol Theater fills a definite niche in the Los Angeles Jewish community and is a distinct addition to the Jewish cultural life of the city.

MARTIN ENGAGED

Shirley Martin, well-known portrait photographer who has achieved considerable reputation as this "still" photographer on Jackie Coogan productions and for Norma Talmadge, has been engaged by First National to handle the "still" work in the picture "The Girl from Montmartre." The Girl from Montmartre.

White Cargo

**to Start Tenth Week's Run Here**

With no indications of a decrease in popularity and ticket sales, Leon Gordon's sensational tropic drama, "White Cargo," will enter its tenth week at the Wilkes Orange Grove Sunday. Ever since it opened here again, three weeks ago, by popular demand, "White Cargo" has been playing to capacity houses. The management has found it necessary to place tickets on sale two weeks in advance.

Capturing honors almost equal to the play itself, are Capt. Arthur Clayton, Harry Wital, "the man who played" Marcelle Zabala as Tondeloy, the only woman in the cast; George C. Pearce as the drunken doctor, Leonard Studie as Langford, and F. Finch Smiles as the missionary, supported by Al Cunningham and Harold Horne as the "White Cargo" is a play dealing with the rough West African Congo, where eight white men wage a constant battle for self-preservation against the elements and the fascinations of native women.

COMPLETES "JOANNA" CAST

With Dolores Del Rio's signature to a contract to play the role of Carlotta de Silva, Spanish countess, Edwin Carver announces that the cast of "Joanna," his forthcoming picture for First National, has been completed.

---

This is a vertical, high-contrast, black and white image. It appears to be a close-up of a textured surface, possibly a book cover or endpaper, showing vertical lines and a grainy texture. On the right side, there is a dark, irregular shape that looks like a shadow or a piece of tape. The overall image is very dark and has a high level of contrast.

A vertical, high-contrast, black and white image showing a textured surface, possibly a book cover or a piece of wood, with a dark, solid black area on the right side. The texture is composed of numerous fine, vertical lines and grooves, giving it a weathered or aged appearance. The lighting is dramatic, with deep shadows and bright highlights that emphasize the physical texture of the material. The right portion of the image is a solid, featureless black, creating a sharp contrast with the textured area on the left.
